

October 29, 2008

To Whom It May Concern:

Our products are manufactured to a high quality standard, then tested under the guidelines of ASTM Designation F 1487-07a<sup>ε1</sup>. These tests are performed in an IPEMA certified lab. Our products are sent to the job site with complete installation instructions, that when followed will conform to the approved acceptable conformance guidelines.

A list of our IPEMA certified products is given on the IPEMA web site. In addition, if a particular structure is requiring certification we can have it certified in a reasonable length of time. We are only able to certify Playground structures after they are designed and bought.

Sincerely,

Dixie Brooks
