14th Edition Catalog

Who would've imagined it? In 1973, a tiny woodworking company manufacturing wood picnic tables, benches and mini-shelters opened its doors in Litchfield, Michigan.

Accepting design challenges from Landscape Architects, Freelance Designers, and basically anyone who had enough initiative to sketch an idea down on a napkin has been our formula for growth.

Today, due to years of hard work, loyal dedicated employees & sales representatives, combined with an unwavering mission for success, Litchfield Landscape Elements has transformed into the park furnishing industry leader you'll marvel over in these pages.

Craig T. Saylor  
President

**Litchfield Landscape Elements  
is "America's #1 Choice"  
for shelters, pergolas, gazebos  
and architectural site furnishings!**

Our Steel Frame Series of shelters assemble easily with bolted, tubular steel construction leaving no areas for bird nesting. Select from our Pittsburgh All-Steel models with 24 gauge Pittsburgh Multi-Rib metal roofing for the greatest in strength and durability. Or choose from our Steel Beam Series which utilizes 29 gauge Litch-Top Max-Rib metal roofing over 2"X6" Southern Yellow Pine Tongue & Groove roof decking. Standing Seam metal roofing is also available at an additional charge.

Looking for a classic wood shelter? Litchfield offers the Laminated Series shelters which come in a variety of shapes, sizes and styles, and our Rustic Series shelters are an economical shade solution for coverage at a lesser cost.

Litchfield's gazebos are available in all the same materials listed above for shelters. From traditional to contemporary, there is a Litchfield Gazebo to meet your needs.

A complete line of site furnishings, including park tables, benches, litter receptacles, planters and more, allows you complete design flexibility in one source.

Model 8520DP  
20' Pittsburgh Octagonal Duo-Top with cupola

Litchfield standard shelters can be turned into eye-catching centerpieces for a park or landscape setting by adding a second or third tier. The 2-Tier & 3-Tier Option is available for most steel frame shelters. Triangles, Squares, Hexagonals, Octagonals, Gable & Hip End structures take on the appearance of a gazebo when a second or third tier is added. Two & Three tier shelters can be further upgraded with oversized columns, handrails, fretwork, and a cupola. See pages 73 & 74.

Model 8540TP 40' Pittsburgh Octagonal Tri-Top with lattice, handrails and a cupola

# CLASSIC EIGHTS

Model 2232 30' X 44' "Classic Eights" Gable End with fiberglass shingles

View of Model 2260 Custom 40'X60' Steel Beam "Classic Eights" Chalet's ornamental steel gable end detail (lighting by others).

Model 2260 Custom 40'X60' Steel Beam "Classic Eights" Chalet

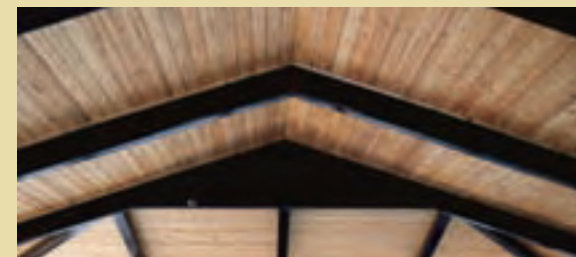

As they say, "the Classics never go out of style". This statement certainly rings true with respect to Litchfield's line of "Classic Eights" shelters which combines the strength and durability of steel with the warmth of tongue and groove wood roof decking. The "Classic Eights" Gable End, Dutch-Hip and Chalet Style shelters also offer incredible versatility. Their classic 8' bay spacing between columns allows for lengths not found in our 20' bay shelters, without the need for intermediate purlins.

Model 2282 30'X56' "Classic Eights" Dutch Hip with cedar shingles

A shelter-length barbecue vent is also available for any size Litchfield "Classic Eights" shelter.

Model 2282 30'X56' "Classic Eights" Dutch Hip Ceiling

# ALL-STAR SPORTS SHELTERS

## Series 9070 All-Steel Dugouts

These All-Steel Dugouts are ideal for use at athletic fields, shuffleboard courts, bus stops or along walking paths as cover for park benches.

Model 9072 8'X28' Center Post All-Steel Dugout

Model 9071 8' X 28' All-Steel cantilevered Dugout shown with optional Survivor Series Benches

## Model 9050 Extreme Sports Covers

*Now moving outside our traditional size parameters...*

Designed to allow outdoor sporting events to continue in the rain or elevated temperatures, the Extreme Shelter is a modified Steel Frame Gable-End Rectangular with elevated roof pitch and raised columns to provide ample clearance for court games. These structures are available in Pittsburgh and Steel Beam models. Extreme Sports Covers can be provided at nearly any imaginable size.

Model 9050 50'X70' Extreme Sports Cover

## Model 9051 All-Steel Range Shelters

These sturdy shelters are designed to allow golfers to practice their swings, rain or shine. They also have several other practical uses including bleacher covers, farmer's markets or ball field dugouts. Current sizes available are 12'-6" X 27' and 20' X 60' (shown), but we can custom design one to meet your needs. Gutters are also available.

Model 9057 20' X 60' All-Steel Range Shelter

## Model 9079 Press Box Video Booth Cover

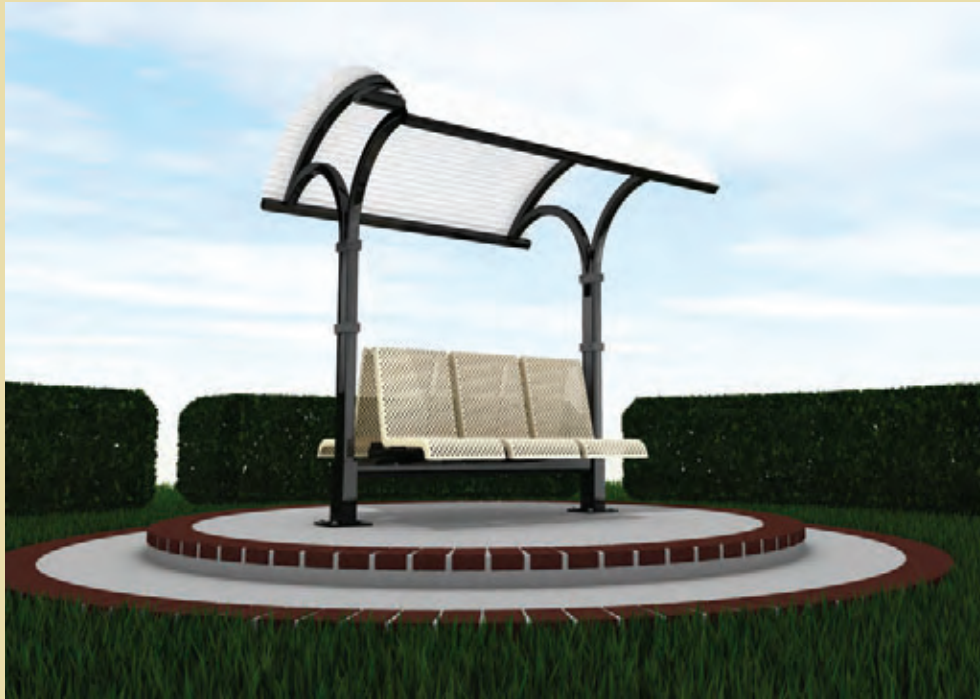

This Custom 8'X36' Pittsburgh Hip-End Rectangular shelter is used as a cover for the video platform at a high school athletic stadium. It features powder coated tubular steel frame, pre-cut painted galvalume metal roof panels, and powder coated steel railings. Litchfield engineers worked with facility managers to fit the structure to their existing announcer's booth, and to verify structural integrity.

(800) 542-5282

## DOWNTOWN SERIES BUS STOP SHELTERS

### Model 8210 Village Square Bus Stop Shelter

Enjoy the tremendous protection from the elements provided by the All-Steel Hip End Bus Shelter. This 4-column design allows for the addition of optional Lexan panels which act as wind-screens to block even more wind and rain. Perfa-Lite perforated metal panels can also be selected as a wind-screen option. Other options include: single or double display cases, and Litch-Top pre-cut metal roof with 2"X6" Southern Yellow Pine T&G roof decking.

### Model 8908 Eurbana Bus Stop Shelter

The Eurbana Transit Shelter provides roomy seating for six individuals in tremendous style beneath a curved corrugated steel roof with elegant curved steel supports. Options include mesh screen divider, single or double display cases, or a picnic table.

Model 8910P 8'X8' All-Steel Eurbana Bus Stop Shelter with (6) seats and double sided display case

Model #8210P-1 Custom 10'X6' Pittsburgh All-Steel Hip End Bus Shelter with 4-column design and optional Lexan wind-screens on 3 sides. Shown with 6' Survivor Bench with back.

## **DOWNTOWN SERIES BUS STOP SHELTERS**

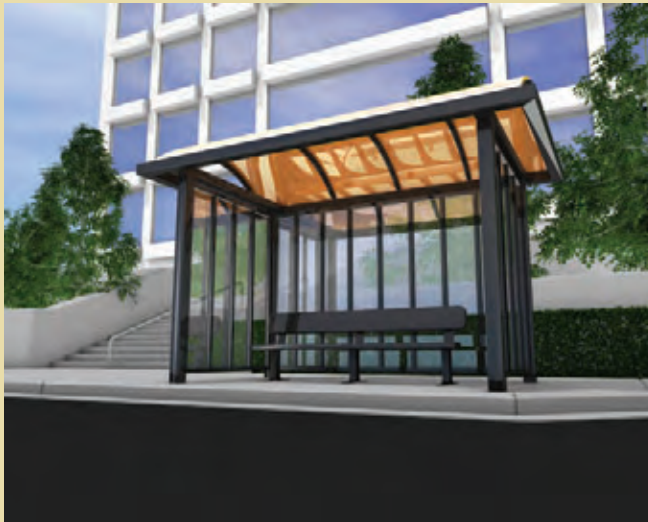

### **Model 8310 Community Bus Stop Shelter**

Model 8310P-1 Custom 10' X 10' Pittsburgh All-Steel Gable End Bus Shelter shown with 4-column design, Lexan wind-screen panels on 3 sides and 6' Survivor Series Bench with back. Custom sizes always available. Other options include: mesh screen divider, Perfa-Lite perforated metal wind-screen panels, single or double display cases, and Litch-Top pre-cut metal roof with 2"X6" Southern Yellow Pine T&G roof decking.

### **Model 8205 Plaza Bus Stop Shelter**

Model 8205P-1 Custom 5' X 10' Pittsburgh All-Steel Arched Bus Stop Shelter with 4 column design, 2 Lexan panels on 5' ends, and 1 Lexan panel and a Survivor Bench on the 10' side. Custom sizes always available. Other options include: mesh screen divider, Perfa-Lite perforated metal wind-screen panels, single or double display cases, and Litch-Top pre-cut metal roof with 2"X6" Southern Yellow Pine T&G roof decking.

### **Model 7218 Restoration Style Bus Stop Shelter**

The Restoration-Style Pittsburgh All-Steel Hexagonal Duo-Top Bus Shelter with ornamental custom laser-cut bench and handrail supports, lattice and banded decorative columns will beautifully adorn any streetscape with its historical architectural appeal. Custom sizes always available. Other options include: mesh screen divider, single or double display cases, Litch-Top pre-cut metal roof with 2"X6" Southern Yellow Pine T&G roof decking, and a picnic table.

Model 7218P Custom 4' X 18' Pittsburgh All-Steel Restoration-Style Duo-Top Bus Stop Shelter with custom ornamental laser-cut lattice, benches & handrail supports, and banded columns with decorative details

# LITCHFIELD MINI-SHELTERS

Our Mini-Shelters are a greatly cost effective way to provide cover with tremendous versatility. Pair either the Pittsburgh All-Steel or the Steel Beam models with a bench, table, display board or bike rack, and you can provide multiple services in a small area.

The original gable models are available in sizes of 8', 10' and 12'. The 2-Post Hipped Mini is available as a 12' square.

Model 8401P 8'X8' Pittsburgh Mini-Shelter open

Model 2099S 10'X10' Steel Beam Mini-Shelter with Bike Rack, 2'X6" Southern Yellow Pine T&G roof decking and fiberglass shingles

Model 8407P 10'X10' Pittsburgh Mini-Shelter with Survivor Table

## Series 8000 Pittsburgh All-Steel "Umbrella-Style" Mini

The All-Steel Single Post "Umbrella-Style" Shelter (hexagonal shown here) is the perfect shade structure to place along a hiking or jogging trail, a dog walking park or bus stop. Optional Infinity Series bench or picnic table available. Also available as an octagonal or square.

Right: Model 8008P All-Steel 8' "Umbrella-Style" Hexagonal Single Post Shelter

(800) 542-5282

# LITCHFIELD GAZEBOS

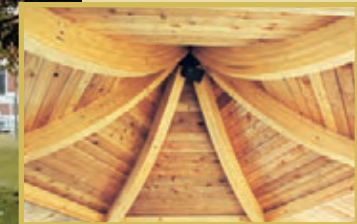

Model 8016SF Custom 16' Steel Frame Duo-Slope Hexagonal with custom ornate rainbow lattice, custom Litch-Kicker frame color, fiberglass shingles and a cupola (column masonry by others)

Model 7316P Custom 16' Pittsburgh Stafford Gazebo with ornate custom laser-cut lattice and cupola. Column masonry by others.

Model 2910 16' Pagoda Gazebo with handrails and fiberglass shingles. Wood stain applied locally by others.

Above: Ceiling of a Pagoda Gazebo with Western Red Cedar roof decking. Additional cost for cedar construction.

## Series 7300 Stafford Gazebo

The dual-pitched roof of the Stafford Gazebo is a popular design specified by many designers wanting a traditional look. Both Pittsburgh and Steel Beam versions have a full line of accessories to make this gazebo as plain or ornate as you wish. The Stafford is available in sizes of 16', 20', 24', 28', 32', 40' and 50'. The options for steel beam models are fiberglass shingles and Pre-cut Galvalume or Standing Seam metal roofing.

Model 7316P Custom 16' Pittsburgh Stafford Gazebo with handrails and circle pattern lattice.

## Series 2900 Pagoda Gazebo

The gently curving laminated rafter beams sweep the roof of this gazebo to a gradual point, where it is capped in copper. The Pagoda Gazebo is available in sizes of 16', 20', 25', 30' and 35'. Columns are pressure-treated pine, and the roof deck is 2X6 Southern Yellow Pine T&G. Options include laminated wood columns, steel columns, cedar roof decking, wood or steel handrails and overhead lattice, fiberglass shingles and benches.

A cluster of various sized Pagoda Gazebos used as an outdoor dining area.

# LITCHFIELD GAZEBOS

Model 7828P Custom 28' Pittsburgh Kingsford Gazebo with masonry columns by others

Model 7814SM 14' Steel Beam Kingsford Gazebo with overhead lattice, handrails, functional cupola and 2"X6" Southern Yellow Pine T&G roof decking over galvalume metal roofing

## Series 7800 Kingsford Gazebo

The Kingsford Gazebo is available in both Pittsburgh All-Steel or Steel Beam models. This hexagonal gazebo with a 12:12 roof pitch comes in sizes of 14', 18', 24', 28', 32' and 40'. The functional open cupola is an integral part of the framework. Options include steel handrails & overhead lattice and benches. Roofing options for Steel Beam models are fiberglass shingles, Pre-cut Galvalume or Standing Seam metal roofing (additional cost for standing seam).

Model 7520 20' Custom Colonial Gazebo with custom white Litch-Kicker steel columns, custom cedar railings & lattice, wind braces, and fiberglass shingles. White stain applied locally by others.

## Series 7500 Colonial Gazebo

A number of components on the Colonial Gazebo are pre-assembled for a more simplified installation. It is available in sizes 12', 16' and 20'. Options include: handrails and overhead lattice, wood deck with stairs, fiberglass or cedar shingles, Galvalume or Standing Seam pre-cut metal roofing. The Colonial is also available in Treated Pine or All-Steel construction with surface mounted or direct bury columns.

Model 7516P 16' Custom Pittsburgh All-Steel Colonial Gazebo with overhead lattice, handrails and custom Copper Litch-Kicker frame finish

# LITCHFIELD GAZEBOS

Model 7025 25' Deerfield Gazebo with glue laminated stepped columns, 2"x6" Southern Yellow Pine T&G roof decking and cupola (roofing material by others)

Model 1904 18'-6" Brentwood Gazebo with steel columns and handrails, ornate cap, and 29 gauge Litch-Top pre-cut metal roofing over 2"x6" Southern Yellow Pine T&G roof decking

## Series 7000 Deerfield Gazebo

The hexagonal, two-tiered Deerfield Gazebo is available in sizes of 25', 30', 35', 40' and 45'. The stepped columns (also available in all-steel), rafter beams, headers and purlins are all glue-laminated Pine, and the roof deck is 2X6 Southern Yellow Pine T&G. The cupola is included. Options include: steel columns, wood or steel handrails and overhead lattice, vented cap, cedar T&G roof decking, fiberglass or cedar shingles, Litch-Top Pre-cut metal roofing, Standing Seam metal roofing.

Right: Model 7030 30' Deerfield Gazebo with cupola. Custom roof materials by others.

Model 7035 35' Deerfield Gazebo with cupola and fiberglass shingles (White stain applied locally by others)

## Series 1900 Brentwood Gazebo

Originally designed in all wood construction this classic hexagonal gazebo receives a welcomed update with its Pittsburgh All-Steel and Steel Beam versions. Options include: steel or laminated wood columns, wood or steel handrails and overhead lattice, vented cap, cedar T&G roof decking, fiberglass or cedar shingles, Litch-Top Pre-cut metal roofing, Standing Seam metal roofing, a golf course enclosure, and a unique spire roof.

Model 1903 18'-6" Brentwood Gazebo with handrails

# LITCHFIELD GAZEBOS

Model 2720 Resorter Gazebo with cedar shingles, handrails and custom peak finial (restroom enclosure custom-built in the field by others)

## Series 2700 Resorter Gazebo

Available in 16' and 20' sizes. This octagonal all-wood gazebo has pressure treated Pine columns, dimensional lumber framing and 2X6 Southern Yellow Pine T&G roof decking. The standard Resorter Gazebo has ornate rafter ends and a decorative finial at the peak (as shown at right).

Optional features include: all-cedar construction, a cupola, floor decking with steps, laminated wood columns, steel columns, wood or steel handrails and overhead lattice, fiberglass or cedar shingles, Litch-Top Pre-cut metal roofing, and Standing Seam metal roofing.

Model 2850 25' New Englander Gazebo with cedar shingles, handrails, overhead lattice and ornamental wind braces. White stain applied locally by others.

Model 2710 Resorter Gazebo with handrails, fiberglass shingles and a cupola. Wood stain applied locally by others.

## Series 2800 New Englander Gazebo

The dual pitched roof of the octagonal New Englander adds a bit of interest to this attractive gazebo which is available in 15', 20' and 25' sizes. Columns are pressure-treated Pine. Other frame components are standard dimensional lumber. The roof deck is 2X6 Southern Yellow Pine T&G, and the fascia board is pressure-treated Pine. Options include: all-cedar construction, overhead lattice and handrails, ornamental wind braces, floor decking with steps, benches, laminated straight or stepped columns, fiberglass or cedar shingles, Litch-Top Pre-cut metal roofing, and Standing Seam metal roofing.

Model 2825 15' New Englander Gazebo with handrails, overhead lattice, ornamental wind braces and 29 gauge Litch-Top Pre-cut metal roofing.

## LITCHFIELD CUSTOM DESIGNS

Model 8182 Custom Pittsburgh Performance Shelter

Model 8197DSM-G Custom Steel Beam Picnic Pavilion featuring (2) 31' and (2) 39' custom Square Duo-Top shelters with custom round banded steel columns, ornate laser-cut flags, and a centrally positioned custom Garden Gallery Pergola

**Litch.eld's Laser-Cutting Capabilities let you Add a Little "Bling-Bling" to your Shelter for a One-of-a-Kind Design!**

Any design that can be illustrated in CAD can be cut in plate steel. This feature enables you to customize any shelter or site furnishing to fit a theme, for example, for your park, city, amusement park, playground, schoolyard, zoo, or day-care center.

Model 8618 Custom 18' Pittsburgh Cabana Square adjoined to (2) 7'X9' Arcata Rectangular Gables both featuring banded steel columns, inset metal roofing and laser-cut ornamentation. ## Series 9300 Sky Series Solar Shelters

featuring Perfa-Lite™ Perforated Metal Roofing

The All-Steel Sky Series Solar Shelter utilizes a slanted ridge beam, curved perimeter beams and the all-new "Litchfield Exclusive" Perfa-Lite perforated metal roofing to simulate the aesthetic appeal and light dispersing function of fabric shade structures. This is a wonderful alternative to fabric structures when vandalism or extreme climates become an issue. The All-Steel construction of the Sky Series will guarantee many years of maintenance free service while providing an abundant amount of

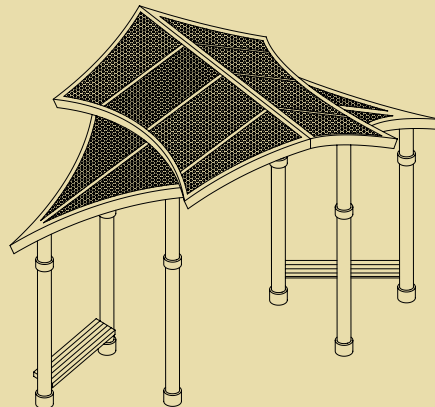

Model 9313-SK Custom 13'X18' Pittsburgh All-Steel Sky Series Solar Shelter featuring Perfa-Lite perforated metal roofing

light into the shelter for a lighter, brighter outdoor experience. Outdoor safety is another important issue. Perfa-Lite blocks up to 44% of harmful UV rays consistently throughout the life of the shelter.

The Sky Series is available in custom sizes, designs and colors. A Duo-Top version is also available (see drawing below).

View of Perfa-Lite perforated metal roofing

Model 9313-SKD Custom 13'X18' Pittsburgh All-Steel Sky Series Duo-Top Solar shelter featuring Perfa-Lite perforated metal roofing, custom round banded steel columns and straight backless all-steel attached benches

## Custom Park Entrance Sign with Gable End Entry Archway Bus Shelters

(1) Model 9924P Custom 24' Pittsburgh Park Entrance Sign featuring custom laser-cutting and decorative baseball and soccer ball connected to (2) Model 8308P Custom 8'X20' Pittsburgh Gable End Entry Archway shelters featuring a custom 12:12 roof pitch and standing seam metal roofing.

## Custom Gable End Duo-Top

Custom Peaked Square  
with attached Angled "Side-Wings"

***Bold and Innovative Landscape Elements***

***Designs that are Uniquely Litchfield!***

The unique angularity of this structure gives it a very modern, "stealthy" appearance which complements much of the architecture in our modern cities. The Model 8176P Custom 32'X32' Peaked Square Shelter is integrated with two Model 8167P Custom 18'X35' Angled "Side-Wing" Shelters. Features include Pittsburgh All-Steel 24 gauge metal roof and custom round banded steel columns. Column masonry by others.

## LITCHFIELD CUSTOM DESIGNS

### Center Post Gables

The Model 8336P Custom 36'X151' Pittsburgh Gable End Center Post shelter provides tremendous coverage for vehicles, boats, farm equipment and more with it's massive size and efficient center post design. The Gable end Center Post shelter features a 24 gauge Pittsburgh All-Steel metal roof and custom 12" square banded steel columns.

Column masonry by others.

***This space-saving Center Post Design is engineered with massive custom 12" square columns making the Gable End Center Post Shelter the perfect choice for use as a parking structure and more!***

**Litchfield's Center Post Gables provide great cover for a wide range of facilities such as:**

- Hotels & resorts
- Marinas
- Military bases
- Shopping centers/malls
- Amusement parks
- Corporate/Industrial parking lots
- Apartment complexes
- Open air/Farmer's markets
- Sports facilities
- Tourist attractions
- Campgrounds
- Farms

# LITCHFIELD ORIGINAL DESIGNS

## Steel Framed Triangle

Model 8800P Custom 18' Pittsburgh Triangular Duo-Top shelter with western-style lattice & handrails, and cupola

The Pittsburgh Triangular Duo-Top Shelter has pre-cut 24 gauge painted galvalume roof panels, western pattern lattice and handrails, and a cupola.

As with other Litchfield steel framed shelters, the Triangle is available in single, duo-top and tri-top roof configurations, in both Pittsburgh All-Steel, and Steel Beam models ranging from 12' to 28'.

## Peaked Square Shelter

Not your typical square shelter. The Peaked Square utilizes a slanted roof design supported by a ridge beam and four columns of two different lengths which helps create the unique angular look of these shelters. These interesting and fun "Peaked" Square shelters are available in Pittsburgh All-Steel and Steel Beam models with 2"X6" Southern Yellow Pine tongue and groove roof decking beneath metal panels which, in this instance, is standing seam metal roofing.

Left: (2) Model 8112SM Custom 12' Steel Beam Peaked Square shelters with 8" square columns and standing seam metal roof.

Model 8124SM Custom 24' Steel Beam Peaked Square shelter with 8" square columns and standing seam metal roof. Masonry by others.

## Standard Shelter Designs as Garden Gallery Pergolas

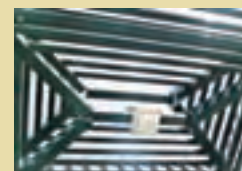

Model 9920 Custom 20' Pittsburgh Garden Gallery Square Shelter with laser-cut circle pattern lattice

Close-up view circle pattern lattice and the pergola's steel slats

Each of Litchfield's standard shelters can be used as the basis for creating a spectacular Garden Gallery Pergola. Simply select a standard shelter shape (square, hexagonal, octagonal, gable end or hip end) and we'll create a Garden Gallery Pergola using individual steel slats connected to the steel frame with stainless steel fasteners.

Choose from our many standard shelters in the Litchfield line, or if you're looking for a pergola with soft curves and a different architectural aesthetic select from our wide variety of Garden Gallery Pergolas starting on page 35.

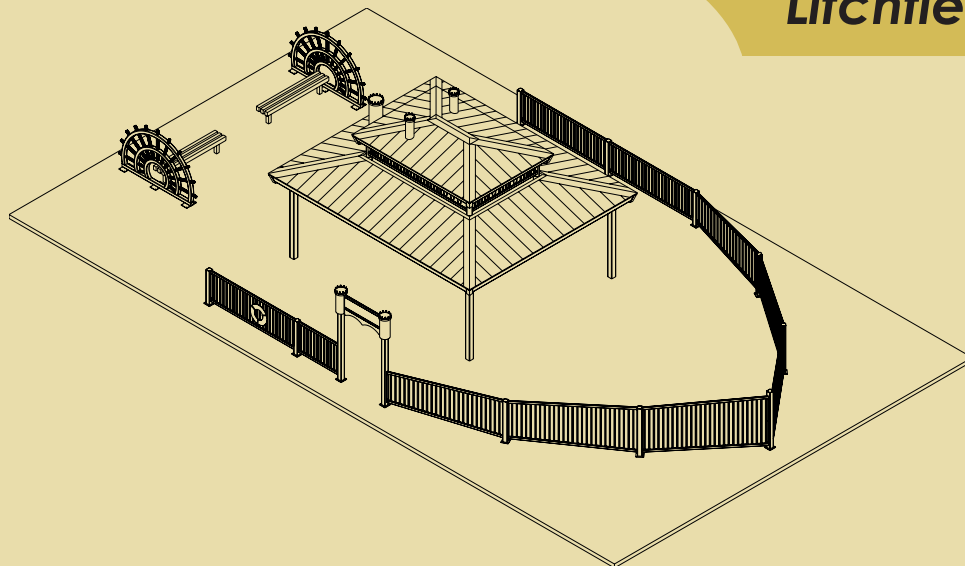

Model 8216P Custom 16'X24' Pittsburgh Hip End Duo-Top Garden Gallery Pergola with laser-cut circle pattern lattice (column masonry by others)

## THEME SHELTER DESIGNS

### Variations on a Theme.

### Litchfield takes Custom Design to Another Level!

With Litchfield design and engineering you can let your imagination run wild to create a theme shelter to perfectly complement the other elements in your amusement park, water park, playground, or sports complex, just to name a few. Take your park or landscape to another level and allow us to design a custom Litchfield Theme Shelter for you!

Top Left: Model Custom 8312P-1 12'X20' Pittsburgh All-Steel Gable End School Shelter with a steeple including a laser-cut bell and gable enclosures with ornamental laser-cutting.

Top Right: Model 8316SM Custom 16'X25' Steel Frame Glendale Farms Gable End Barn-Style shelter featuring a duo-slope roof, gable enclosures with laser-cut barn door accents, custom white Litch-Kicker frame finish and a cupola. Designed to match a barnyard themed playground (partially shown on right side of photo) located in Yorkville, Illinois.

Bottom Left: Model 8220DP-1 Custom 20'X24' Pittsburgh All-Steel Hip End Duo-Top Steamboat Shelter with custom laser-cut lattice, handrails with entry archway & laser-cut life preservers, tubular steel smokestacks with laser-cut accents, and all-steel in-ground benches with decorative paddle wheel ornamentation.

# MAESTRO SERIES PERFORMANCE SHELTERS

Model 9008 40' X 20' Laminated Waved Beam Performance shelter with Quad-Steel columns

## Laminated Waved Beam Performance Shelter

The Waved Beam Performance shelter is available in standard sizes of 40' X 20', 40' X 30' and 40' X 40' (custom sizes are always available). Glue-laminated waved beams free-span from side to side, supported by steel columns. The roof deck is 2" X 6" southern yellow pine tongue & groove. Options include: cedar tongue & groove roof deck, oversized steel columns or Litchfield's own "Quad-Steel" columns (see top photo), and fiberglass shingles.

Model 9012 40' X 30' Waved Beam Performance shelter (masonry by others)

Model 9008 40' X 20' Waved Beam Performance shelter (masonry by others)

Model 9836P  
Custom 36' Pittsburgh Summit Series Performance Shelter

## Summit Series Performance Shelter

Enjoy many years of great concert performances with the durable All-Steel Summit Series Performance Shelter which features an extended half-octagon design which features a voluminous 36' of overhead coverage accented by a peaked roof with exposed rafter beams creating a unique architectural detail.

## Cambria Series Performance Shelter

This custom designed concert shelter comprises an Octagonal Steel Beam shelter with a Gable Opening on one side. This design with the gable opening creates a very dramatic effect with a stunning archway facing the audience. The beautiful western red cedar roof decking (also available in southern yellow pine) adds another eye-pleasing element to this gorgeous performance shelter.

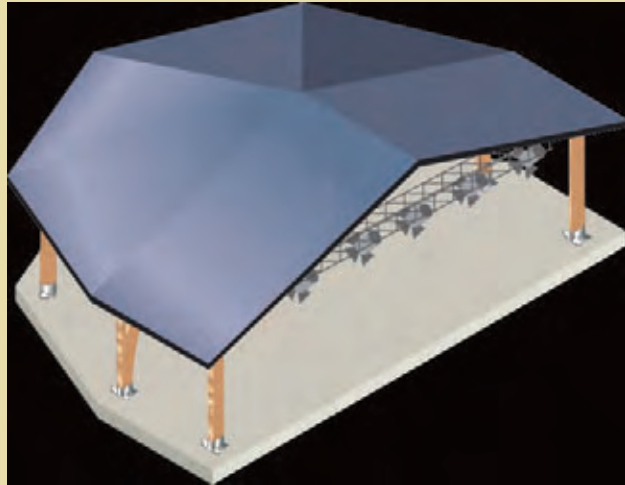

This structure features a bolted tubular steel frame, 2" X 6" western red cedar tongue & groove roof deck, and standing seam metal roofing.

Model 7400SM 25' X 30' Cambria Series Octagonal Steel Beam Performance shelter featuring a gable opening, steel handrails, ornamental lattice, Western Red Cedar roof decking and standing seam metal roof

# MAESTRO SERIES PERFORMANCE SHELTERS

## Laminated Rainbow Arch Performance Shelter

The Laminated Rainbow Arch design combines portions of our Octagonal Laminated Rainbow Arch and Laminated Curved Beam shelters to create a stage cover that is deep and wide. Side-to-side span under roof is 36'. Columns, beams and arches are all glue-laminated southern yellow pine. The roof deck is 2" X 6" southern yellow pine tongue & groove. Options include: cedar tongue & groove roof deck, handrails and overhead lattice, fiberglass or cedar shingles, Litch-Top pre-cut metal roofing or standing seam metal roofing.

Steel Beam and Pittsburgh Steel Frame versions are available.

Model 9037 Laminated Rainbow Arch Performance shelter with 2"x6" Southern Yellow Pine T&G roof decking and fiberglass shingles

## Monterey Series Performance Shelter featuring Perfa-Lite™

The newest addition to the Maestro Series line-up is the Monterey Series Performance shelter. The Model 9916 Monterey Series is a custom 36' 10-sided All-Steel performance shelter with a "Fan-Style Roof" which in this instance (see photos) utilizes a brand new metal roofing alternative called Perfa-Lite™ which has been created by Litchfield.

Built to last with All-Steel construction. The Perfa-Lite™ roof allows light to shine through while still providing tremendous protection from the sun's harmful rays! See page 74 for more details about Perfa-Lite™.

## GARDEN GALLERY PERGOLAS

Model 9710 14' X 60 All-Steel Raritan Bay Curved Beam Pergola with optional Round Banded Steel Columns (column masonry by others)

### Raritan Bay Pergola

The Raritan Bay Pergolas soft curves create a striking architectural statement as a memorial or the focal point of a garden or a landscape setting. The Raritan Bay's bolt together tubular steel construction ensures ease of installation and many years of maintenance free enjoyment. Also available in a duo-top model (shown at top right).

Model 9710 Custom 10'X34' Pittsburgh Raritan Bay Pergola with 8" round banded columns

Model 9780 8' X 29'-6" All-Steel Boulevard Straight Beam Pergola with curved wind braces and standard Quad-Steel Columns

### Boulevard Pergola

Quad-Steel columns and canti-levered design make the Boulevard a stunningly elegant pergola option. Add attached benches and a Pittsburgh or Litch-Top pre-cut metal roof, or Perfa-Lite perforated metal roof and the Boulevard Pergola makes an attractive and functional bus stop shelter.

Right: Isometric view of a standard All-Steel Quad Column

Model 9720 8' X 120° All-Steel Raritan Bay Curved Beam Duo-Top Pergola

Model 9710 Custom 12'-6"X75° Pittsburgh Raritan Bay Pergola with round banded columns

**Curved Beam Pergolas are based on 30° increments**

Pergola Options:

- Square, Rectangular or Round Radial Beams
- Square, Rectangular, Round, or standard or premium Quad-Steel columns (straight or stepped)
- Perfa-Lite Perforated Metal Roofing (for more details see p. 74)
- Roof Pitches: 4:12, 6:12, 8:12 or flat

Close-up view of the Boulevard Pergolas cantilevered design

## GARDEN GALLERY PERGOLAS

Model 9760 Custom 7'-3"X134' All-Steel Curved Beam Arborview Pergola with 3" round radial beams (paint finish by others)

**Curved Beam Pergolas  
are based on 30° increments**

### Pergola Options:

- Square, Rectangular or Round Radial Beams
- Square, Rectangular, Round or Quad-Steel Columns (Straight or Stepped)
- Perfa-Lite Perforated Metal Roofing (for more details see p. 74)
- Roof Pitches: 4:12, 6:12, 8:12 or flat

Model 9750 Custom 50' X 99'  
All-Steel Centennial Series Pergola

### Arborview Pergola

With its unique round pickets the Arborview Pergola will add a great deal of visual interest to your park or garden setting.

Select from one of our standard Litch-Kicker colors for a more traditional pergola look or select a custom color or colors (as pictured) to give the Arborview a fun and funky look which, for example, can complement a playground design such as Jack and Jill Park in Albuquerque, New Mexico.

### Centennial Series Pergola

Need a partial shade shelter for a large open area? The Centennial Series Pergola is the perfect choice due to its massive size. The Centennial Series is a 16' X 50' X 99' All-Steel Straight Beam Pergola with square columns. Allow us to design a shade solution which will accommodate your site needs.

Model 9760 Custom 7'-3"X134' All-Steel Curved Beam Arborview Pergola with 3" round radial beams (paint finish by others)

Model 9750 Custom 50' X 99' All-Steel Centennial Series Pergola

(800) 542-5282

## GARDEN GALLERY PERGOLAS

Model 9730 8' X 140 All-Steel Senn Park Curved Beam Pergola with square columns

### Senn Park Pergola

The Senn Park Pergola's cantilevered design allows for the use of less columns which creates an airier, less cluttered pergola design. This is the perfect pergola design for park users who want to sit down, relax and take in the view at their favorite park or public gardens.

Model 9730 8' X 140° All-Steel Curved Beam Pergola with Square Columns

**Curved Beam Pergolas  
are based on 30° increments**

Pergola Options:

- Square, Rectangular or Round Radial Beams
- Square, Rectangular, Round or Quad-Steel Columns (Straight or Stepped)
- Perfa-Lite Perforated Metal Roofing (for more details see p. 74)
- Roof Pitches: 4:12, 6:12, 8:12 or flat

Model 9770 Custom 15'X35' Town Square All-Steel Pergola (column masonry by others)

### Town Square Pergola

A straight beam pergola with Craftsman-inspired stepped support beams. The design utilizes all-steel construction including square column supports and rectangular pickets. This simple, classic design will look just perfect at the center of your town square!

Two Model 9770 Town Square All-Steel Pergolas creates a unique focal point to this park

Color rendering of the Model 9770 Town Square Pergola illustrating the Craftsman-inspired stepped support beams.

## GARDEN GALLERY PERGOLAS

### Garden Gallery Pergolas can be Decorative, Functional or Both!

The Garden Gallery Series offers a wide array of pergola styles and sizes which can be customized to suit your site requirements or design aesthetics. For example, pictured below, is our Garden Gallery Gable End Entrance Gateway. This beautiful pergola follows not only form but function too. Allow us to create a Garden Gallery Pergola to fit your needs beautifully!

Model 9900 Custom 25'X7'-5" Pittsburgh "Pergola Style" Gable End Entrance Gateway with 2 column design, corner braces and custom white Litch-Kicker frame finish (column masonry by others)

**Curved Beam Pergolas are based on 30° increments**

#### Pergola Options:

- Square, Rectangular or Round Radial Beams
- Square, Rectangular, Round or Quad-Steel Columns (Straight or Stepped)
- Perfa-Lite Perforated Metal Roofing (for more details see p. 74)
- Roof Pitches: 4:12, 6:12, 8:12 or flat

(\*) Column masonry by others

### Cabana Style Pergola

Relax by the pool in style with our Cabana Style Pergolas. Fabri-Cover fabric roofing material is available for the Cabana Style Pergola (see pages 38 & 39 for details).

Model 9710 Custom 135'X14'X120, Raritan Bay Pergola featuring attached straight beam pergola extensions at each end. Also located at each end is a Model 8716P Custom 20' Cabana Style Pergola (column masonry by others).

### Riverwalk Pergola

Inspired by the lush landscaping and unique architecture of the San Antonio River Walk, the Riverwalk Pergola has a curved pergola top which is perfect for growing beautiful vining plants. Along with the gently curving wood laminated beams the Riverwalk Pergola is a wonderful choice to accent a rest area along a walking trail, river or stream.

Play it Cool...

Model 4501 Square

Model 4507 Dual Column Umbrella

Model 4501 Square

...by taking advantage of the UV Blocking Strength of our Fabri-Cover Shade Structures!

New Revolutionary Patent Pending  
Glide Elbow

Our revolutionary, patent pending, **Glide Elbow** was designed with you, the owner, in mind. In case of unusual or unexpected weather, such as tornadoes, hurricanes or snow storms, the fabric can be removed quickly and safely.

Easy installation and removal of your fabric is completed with the use of a simple wrench. Our **Glide Elbow**, not the weather, will be in control of your investment for many years to come.

Just a few of the benefits of Fabri-Cover products include:

- Protect your play equipment investment
- Our fabrics provide up to 80% water repellency
- Your play structures will be cooler to the touch
- Our fabrics provide up to 97% UV protection, which protects children from harmful skin damaging sunburns
- Around sports fields, our canopies provide protection from misdirected, high-flying balls
- Our superior Glide Elbow enables you to remove and re-install canopies very quickly in case of unusually severe weather
- Both our high-gloss powder coated steel frames and outstanding UV block fabrics come in a wide variety of pleasing colors, which you can match as you choose

# FABRI-COVER SHADE STRUCTURES

## Listen to the Facts and Play Cooler!

- Fabri-Cover Shade Netting Features
- 10 year limited warranty
- UV stabilized high density polyethylene ASTM 84
- Blocks up to 97% harmful UV rays
- Provides up to 91% shade
- Fire rating NFPA 701
- Fade resistant
- Mildew and rot resistant
- 80% water repellent
- Fabric breaths allowing hot air to rise and escape creating a cool cushion underneath
- Provides hail protection
- Available in a wide variety of colors
- Will not sag or loosen over time - due to a process called stentering, fabric memory will keep it looking new

Model 4508 Cantilever

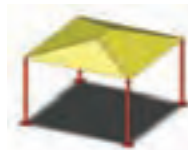

## Fabri-Cover Structural Steel Features

- Engineered to withstand 80-150 miles per hour wind, depending on requirements.
- Meets uniform building codes ASTM A-36, A-53, A500, A513, and A-569.
- Custom design for superior strength
- Durable and corrosion resistant
- Column options available for all Fabri-Cover Shade Structures include: square, round, rectangular, standard quad, premium quad and stepped columns

# LAMINATED SHELTERS

## Series 1300 Laminated Hexagonals

available sizes: 20', 25', 30', 35', 40', 45', 50', 60'

Model 1332 30' Laminated Hexagonal with Cedar shingles and a vented cupola

Above: Optional steel column

Above Left: Model 1328 25' Laminated Hexagonal with 24 gauge metal roofing

Left: Laminated Beams and Purlins

## Series 7900 Laminated Squares

available sizes: 16', 20', 25', 30', 35'

Model 7916 16' Laminated Square with fiberglass shingles

The Laminated Series Shelters utilize straight architectural grade glue-laminated beams and purlins on top of pressure-treated southern yellow pine columns. Hexagonal, Octagonal and Square shelters are available in a variety of sizes.

Standard shelter materials are: Pressure-Treated Columns, Laminated Beams and Purlins, and 2" X 6" Southern Yellow Pine T&G Roof Decking.

Options available are: Laminated or Steel Columns, Cedar 2" X 6" T&G Roof Decking & Fascia, Wood Handrails and Overhead Lattice, Steel Handrails and Overhead Lattice, Wind Bracing, Cupola, Fiberglass or Cedar Shingles, Litch-Top Pre-cut Metal Roofing. Custom: Standing Seam Metal Roofing.

## Series 7200 Laminated "Stretched" Hex

available sizes: 30'X52', 30'X68', 30'X84'

Model 7253DSM Custom 30'X52' Laminated "Stretched" Hex with 29 gauge metal roofing and optional vented roof

Hexagonals, Octagonals and Squares can be "stretched" to create an elongated shelter. The stretched shelters also have the option of adding a vented roof.

## Series 1600 Laminated Octagonals

available sizes: 22', 29', 33', 38', 45'

Model 1699 Custom 26' All-Cedar Octagonal Duo-Top with Cedar lattice, handrails, wind braces and 2"X6" Southern Yellow Pine T&G roof decking. Roofing material by others.

# LAMINATED CURVED BEAM RECTANGULARS

## Series 1700 Laminated Curved Beam Rectangulars

Architectural grade glue-laminated southern yellow pine members make up this popular series of shelters. Choose from a number of Gable-End or Dutch Hip-End Rectangular shelter sizes.

The Laminated Curved Beam shelters are available in free-span widths of 12', 16', 20', 22', 24', 28', 30', 40' and 50'. The minimum length of a shelter is 20' (two 8' bays with 24" overhangs) for the shorter spans. Other lengths are 28', 36', 44', 52', 60' and 68' (+ additional 8' bays). The roof decking is hand-select #2 Southern Yellow Pine 2" X 6" tongue & groove roof decking. Columns are pressure-treated Pine but optional steel columns are available.

Model 1721DH 30' X 52' Laminated Curved Beam Dutch Hip with pressure treated Pine columns, fiberglass shingles, optional cupola and optional weather vane

Options include:

- Western Red Cedar T&G Roof Decking
- Laminated Columns (straight or stepped)
- Steel Columns (square, rectangular, round or Quad)
- Pre-Cut Litch-Top Metal Roofing
- Standing Seam Metal Roofing (upgrade available)
- Fiberglass or Cedar Shingles
- Wood or Steel Handrails
- BBQ Vented Roof
- Cupola

Model 1744 20'X44' Laminated Curved Beam Gable End with 2"X6" Southern Yellow Pine T&G roof decking, fiberglass shingles and optional steel columns

Laminated Curved Beam ceiling with 2"X6" Southern Yellow Pine Tongue & Groove roof decking

A full-length Barbeque Vent was added to this "L" shaped Laminated Curved Beam shelter. Also shown with optional wood handrails and fiberglass shingles.

Model 1745 40' X 60' Laminated Curved Beam Gable End shelter with 2"X6" Southern Yellow Pine T&G roof decking, 29 gauge Litch-Top pre-cut metal roof and optional steel columns.

# LAMINATED SOLID ARCH SERIES

## Series 2000 Rectangular Solid Arch

- Cedar T&G Roof Decking
- Cupola
- Fiberglass or Cedar Shingles
- Pre-cut Metal Roof

## LAMINATED RAINBOW ARCH SERIES

The gothic feel of these laminated open arches creates an attractive yet strong framework that resembles the flying buttresses of the renaissance cathedrals. These three part arches, made up of post, arch and beam are assembled on-site to allow for shipping in a knocked-down bundle. The posts and arches are laminated, pressure-treated pine, and the beams are laminated pine. Some field drilling is required during installation.

### Series 2600 Laminated Rainbow Arch Rectangular

Standard Widths:  
20', 30', 40'

Standard Lengths:  
44', 52', 60'

### Series 2100 Laminated Rainbow Arch Hexagonal

Standard Sizes: 16', 24', 32'

Left: Model 2126 24' Laminated Rainbow Arch Hexagonal shelter with optional cedar shingles. Stain applied locally.

#### Rainbow Arch Series Features:

- Glue Laminated Pine Arches, Columns and Purlins
- Pressure Treated Fascia
- 2" X 6" Southern Yellow Pine T&G Roof Decking

#### Rainbow Arch Options:

- Cedar 2"X6" T&G Roof Decking
- Cedar or Fiberglass Shingles
- Cupola
- Wood Handrails
- Corner Bracing

Additional sizes may be available. Please contact the Litchfield Sales Office, or your local Litchfield Sales Representative.

Right: Model 1175 15' X 32' Barbeque Shelter with fiberglass shingles

## CENTURION STEEL ENTRY GATES

Litchfield proudly offers our exclusive line of Centurion All-Steel Swing-Style Entry Gates which we custom build in our fabrication shop to the rigid specifications of our customers. The standard swing length is 12'-6" measured from the center of the pivot to the end of the arm but lengths can vary based on need. Maximum "single swing" length is 20' and maximum "double swing" gate length is 40'. All

Model CSG-209 Curved Beam Single Swing Gate with circle pattern Custom color shown. Column masonry by others.

Model CSG-210 Arched Double Swing Gate with radial pickets in Adobe Tan & Forest Green Litch-Kicker Paint Finish. Column masonry by others.

associated hardware including a hinge or hinges utilizing 2-ton bearings and a locking mechanism for either the single or double swing styles are standard. As an option, electrical access holes can be added (at an additional charge) for lighting fixtures or to mount a security video system. Litchfield utilizes laser-cutting technology to create a number of our steel entry gate designs. Select from the attractive design choices shown here or use your imagination and provide us with your own custom design idea!

Centurion Steel Entry Gates are made of welded tubular steel which is sandblasted to a near white condition to remove dirt and oils, then coated with our Litch-Kicker finish to provide many, many years of service. Select from one of our standard Litch-Kicker colors (see page 76) or provide us with an RAL number for a custom color. Custom colors and powder coating is available at an additional charge.

# CLASSIC BENCHES

Model 3123  
Grand Central Bench  
with 6' Oak slats

## Series 3100 Grand Central Bench

As strong and durable as they are beautiful, these classic benches can be used indoors or out, at parks, in malls, terminals or lobbies. The Grand Central Bench has twelve 1-3/8" X 2-3/8" wood slats. The heavy cast-iron ends are finished with Litch-Kicker in black. Lengths available are 4', 5' and 6' as a single bench. The addition of a third center casting allows for 8', 10' and 12' lengths (below left: Model 3134, 10' Purpleheart).

Baby Grand Bench  
Available in 4', 5' and 6' Lengths  
Pictured: Model 3142 5' with Redwood

## Series 3150 World's Fair Bench

The World's Fair Bench has two cast-iron ends with eight 1" X 2-1/2" slats and one 1" X 3" slat. Additional castings can be added to make 10' and 12' models.

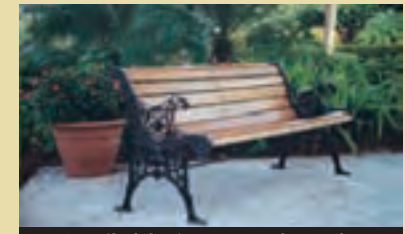

Available in 5', 6' & 10' lengths

Above: Model 3153 World's Fair Bench  
with 6' Oak slats

## Series 3110 Bostonian Bench

The Bostonian Bench has two ornate cast-iron ends with twelve 3/4" slats of various widths. Shown is Model 3113, 5' with Oak slats. The slats fit very close together to form a very comfortable contour seat.

Available in 4' & 5' lengths

Above: Model 3113 Bostonian Bench  
with 5' Oak slats

## Series 3100 Liberty Bench

Three cast-iron frames support seven 2" X 4" slats. The Liberty Bench is standard at a 6' length, although longer models are available upon request.

Model 3100 Liberty Bench with 6' Pine slats

### Available Woods for Series 3120, 3100, 3150 & 3110:

Treated Pine, Clear Redwood,  
#1 Oak, Douglas Fir, Ipe, Mahogany,  
and Purpleheart.

It is not recommended using Oak  
for outdoor installations.

Slats have eased edges and are pre-drilled  
for stainless steel hardware attachment.

## CONTOUR BENCHES

### 18-Slat Contour Bench

The 18-Slat Contour Bench features sixteen 1-1/4" X 1-3/8" slats and two 1-1/4" X 2-3/8" outside slats. Contour frames are 3/8" X 4" steel straps. Shown is Model 3082 18-Slat Contour Bench with 6' Oak slats and gull leg.

### 8-Slat Contour Bench

The 8-Slat Contour Bench features eight 3" X 4" nominal slats. Shown is Model 3041 8-slat Contour Bench with 6' Pine slats and gull leg supports.

### 13-Slat Contour Bench

The 13-Slat Contour Bench features thirteen 2" X 3" nominal slats on contour frames of 3/8" X 4" steel straps. Shown is Model 3020 13-Slat Contour Bench with 6' Redwood slats in-ground.

Left: Model 3025 13-Slat Contour Bench with 8' Redwood slats and Model 3020 13-Slat Contour Bench with 6' Redwood slats. Both have optional surface mount plates and optional arm rests.

### Wall Mount Contour Bench

This 6' 13-Slat Contour Bench is shown with wall mount support brackets and oak slats. Brackets can be mounted to most vertical surfaces. Model 3032 13-Slat Contour Bench with 6' Oak slats and optional wall-mount brackets.

### Single Seat Contour Bench

This 2' wide single seat version of the 13-Slat Contour Bench is shown with single surface mount plate supports and Redwood slats. Shown is Model 3061 13-Slat Single Seat Contour Bench with Redwood slats & optional arm rests.

### Single Post Contour Bench

This 8-Slat Contour Bench is shown with single in-ground mount support and Redwood slats, Model 3052SP

The Series 3000 Contour Benches show off the beauty of wood more than any other. Choose from the 8-slat, 13-slat or 18-slat styles. Wood types available are: treated Pine, Redwood, Douglas Fir, Mahogany, Oak, Purpleheart and Ipe. Most of the standard contour benches are available with one-of-three different mounting styles: in-ground, surface-mount plate, and portable gull leg. Each style of contour bench is offered in 6' and 8' lengths. Optional styles include a single post, in-ground mount, wall-mount brackets, arm rests, and single seats.

(800) 542-5282

# WOOD BENCHES

## Series 3300 Victory Bench

Available in 6' and 8' lengths, the 14-Slat Victory Bench features 1-3/8" X 2-7/8" wood slats with eased edges and pre-drilled holes for stainless steel hardware attachment. The Victory Bench strongly resembles our Contour Benches. The difference is the orientation of the slats, and that the fasteners are not seen from the front. Wood slat choices and mountings are the same as those for the Contour Benches.

Model 3312 Victory Bench with 6' Purpleheart slats and in-ground supports

Model 3313 Victory Bench with 6' Purpleheart slats and gull-leg supports

## Series 3200 Landscape Bench

Available in 6' and 8' lengths. Slats are Pine, Redwood, Purpleheart, Oak or Ipe. It can be ordered with permanent, in-ground or surface-mount gull-leg supports. With or without a back, this popular model can be ordered with 2X4, 3X4 or 4X4 slats.

Model 3242 6' Landscape Bench with 3"X4" Redwood slats, in-ground supports & back

Model 3225 6' Landscape Bench with 2"X4" Redwood slats, gull-leg supports & no back

## Series 3800 Dearborn Bench

Available in 6' and 8' lengths. Slats are 4X4 nominal Pine, Douglas Fir, Redwood, Purpleheart or Ipe. It can be ordered with permanent, in-ground or surface mounted supports.

Above: Model 3805 Dearborn Bench with 6' Redwood slats, back and surface mount supports

Left: Model 3825 Dearborn Bench with 6' Redwood slats, surface mount & without back

## Series 3350 Burlington Bench

Available in 6' and 8' lengths, with 2-3/8" O.D. steel pipe frames. Slats are 3X4 nominal Pine, Redwood, Cedar, Purpleheart or Ipe. It can be ordered with permanent in-ground (at additional cost) or surface plate-mounted supports.

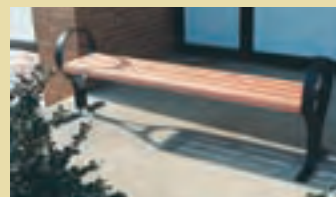

Above: Model 3351 Burlington Bench with 6' Pine slats, back & plate mount supports

Left: Model 3352 Burlington Bench with 6' Pine slats, in-ground & without back

## Series 6600 Hoop Bench

Available in 6' and 8' lengths. Four seat slats and three back slats are 3X4 nominal Pine, Douglas Fir, Redwood, Mahogany or recycled plastic. It can be ordered with permanent in-ground or moveable surface mounted supports.

Above: Model 6610 Hoop Bench with 6' Redwood slats, with back & gull-leg supports

Left: Model 6611 Hoop Bench with 6' Redwood slats, gull-leg supports & without back

# WOOD BENCHES

## Series 3700

### Hex Mall Bench

The Hex Mall Benches have center openings from 44" to 127", and are available in Redwood or Treated Pine.

Right: Model 3710 Hex Mall Bench in 65" Redwood with in-ground supports

### Series 3400 Low Rider Bench

Available in lengths of 6' and 8', it has a turned up seat of four 2X4 slats in treated Pine, Redwood or Oak. An optional back is available, and the supports can be permanent in-ground or surface mount gull-leg.

Model 3409 in Redwood with gull-leg supports

### Series 3400 Players Bench

Available in lengths from 2' to 12', it has a seat of strong electronically bonded, edge-grained Michigan maple laminate. The surface mounted gull-leg supports are powder-coated black.

Model 3454 6' with gull-leg supports

### Series 3900 Deluxe Bench

Constructed entirely of treated Pine or Redwood, with or without a back. Legs are 6X8, seat braces are 4X4, and seat and back planks are 3X6. All components are pre-drilled and countersunk for easy attachment in the field.

Model 3953 6' Deluxe Bench in treated Pine

### Series 3900 Rustic Bench

Capped galvanized pipe frame with 2X4 nominal slats in 6' or 8' treated Pine or Redwood. Available with permanent in-ground supports only.

Model 3901 6' Rustic Bench in treated Pine

## Series 5100 Mall Benches

Well suited to both indoor and outdoor use, from shopping malls to lobbies, and outdoor rest areas, the Mall Series Benches are versatile, durable and attractive. Slats are 2X4 nominal spaced with phenolic spacers and locked together with internal steel rods. Available in 6' and 8' lengths, with or without a back, in Pine, Redwood, Mahogany, Oak, Purpleheart and Ipe. Mounting steel frames are finished in black enamel, and can be either permanent in-ground, or surface mount with a plate or gull-leg. Optional polyurethane finish on wood slats for indoor use. Oak is not recommended for prolonged outdoor use.

The Regular and Square Mall Benches are open on the ends. The Box Mall Benches have a "boxed in" frame of 2X6 nominal perimeter slats offset from the 2X4 slats with 1/2" wood spacers. All slats have eased edges for comfort.

### Standard Mall & Square Mall Bench

The Standard Mall Bench is available in 6' and 8' lengths, with or without a back. The Square Mall Bench is 2' square, and is available without a back only. Available in treated Pine, Redwood & Oak.

Model 5158 Square Mall Bench in Oak with surface mount plate

Model 5102 Standard Mall Bench 6' Pine, gull-leg with back

### 90° Mall Bench and Straight Box Mall Bench

Model 5163 Straight Box Mall Bench, 6' Pine with in-ground supports

The 90°Box Mall Bench is available as a 6' X 6' corner without a back. The Straight Mall Box Bench is available as 4', 6' and 8' without a back. Both are available in treated Pine, Redwood & Oak.

Model 5144 90° Box Mall Bench 6' X 6' in Pine with in-ground supports

## PARK TABLES

Model 4330 American table in 4X4 Redwood, single post in-ground support

### Series 4300 American Tables

The American Table is available in both square and rectangular configurations. The single, center post, buried in-ground, gives a clean, uncluttered appearance. Optional surface mount plate available at an additional cost.

Woods are either treated Southern Yellow Pine or Redwood. Also available in Earthcare Series recycled plastic lumber (see page 57 for details and colors). The original 4X4 tables are offered in 2X4, 3X4 or 4X4 construction. The 3X3 is also available with 3" X 10" planks. The square tables are available with and without seat backs. The 6' rectangular tables are offered with 2X4, 3X4 and 4X4 wood members.

Redwood is finished with Homoclad Sealer to retain the wood's rich, reddish color. The treated Pine is finished with Walnut Brown oil stain.

Model 4309 3' Square American Table in 3X4 Redwood with seat backs and optional 4390 Checkerboard (shown at right)

Model 4321 4' Square American Table in 3X4 Redwood with seat backs

Model 4332 6' American Table in 2X4 treated Pine, in-ground support

Model 4340 3' Square American Table in 3X10 Redwood without seat backs

Optional: Model 4390 Checkerboard. Available for most wood and recycled tables (please inquire).

### Series 4800 Dearborn Tables

The table measures 38" X 40". Seats measure 19" X 18-1/2". Both are available with surface mount or in-ground supports. The seats are available with or without backs. Tables and seats are sold separately. Offered in Pine or Redwood.

Model 4800 Dearborn Table in Redwood with in-ground support and (4) Model 4810 Dearborn seats in Redwood (sold individually)

### Series 4200 Rustic Saddle Seat

A Litchfield classic! The seats are supported by a welded steel ring connected to massive 6X6 Pine, Redwood or recycled legs. Top boards are 2X10 nominal lumber. Frame is finished in our standard black or brown enamel. Sizes available are 40" diameter, 4-Seat and 54" diameter 8-Seat models.

Available in ADA with minimum seating for four.

Model 4240 54" 8-seat Rustic Saddle Seat Table in Redwood. Shown with optional umbrella.

# PARK TABLES

## Series 9500 Rustic Park Table

This handy design is available with high tensile 1-5/8" or 2-3/8" outside diameter galvanized pipe frames with 1/8" minimum wall thickness. Table Top and seat frames use 10-gauge galvanized steel. Diagonal braces are 15/16" outside diameter high tensile galvanized pipe. Table top and seat boards are 2X10 nominal #1 Southern Yellow Pine. Available in either untreated or ACQ pressure treated, and recycled plastic. Choose between 6', 8' and handicap-accessible models.

Model 9522 6' Rustic Table with 2-3/8" galvanized pipe frame in treated Pine

Model 9531 6' Rustic Table with 1-5/8" galvanized pipe frame in treated Pine

## Series 4000 All-Wood Deluxe Table & Series 4100 Traditional Table

Deluxe tables have 6X6 legs and 4X4 cross braces and seat braces, pre-drilled and countersunk. The Traditional tables have 4X4 legs with mortised construction for extra strength. Cross braces and seat braces are 3X3, pre-drilled and countersunk. On both, tops and seats are #1 2X10 nominal boards. Hardware is stainless steel. Available in 6' and 8' lengths. Materials are #1 Southern Yellow Pine, with or without Walnut Brown oil stain, or Redwood with Homoclad sealer. Top shipped assembled.

Model 4063 6' Deluxe Table in unfinished Pine

Model 4163 6' Traditional Table in unfinished Pine

## Series 4400 Mountaineer Tables

The Mountaineer table is constructed of 4X6 slats in Redwood or pressure-treated pine on a welded steel frame. The seats are available with or without backs (if ordered with backs, designate using "SB" after the model number). The 4' square table is portable only. The 6' and 8' rectangular tables can be portable or permanent in-ground installation. Mountaineer Series tables are available in wheelchair accessible designs.

Model 4428 6' Mountaineer Table in Redwood, portable

Model 4444 4' Square Mountaineer Table in Redwood with seat backs

## Little Seats

Little Seats are the perfect picnic spots for the kids. We offer the same comfortable, durable designs of our standard Mountaineer or Deluxe Series tables in a reduced scale for smaller appetites.

## "Elegance in Recycled Plastic"

Litchfield is proud to offer an environmentally-friendly option for our most popular site furnishings. Made of 100% post-consumer plastic, with no industrial waste or other filler added, the Earthcare Recycled Plastic replaces wood components on benches, tables, litter receptacles, planters, bike racks and bollards, and makes up our Series 9900 speed bumps and parking stops.

Earthcare Recycled Plastic is available in a number of attractive colors, which maintain an aesthetically pleasing appearance without finishing.

# SURVIVOR SERIES FURNISHINGS

## Regal Series

The Regal Series tables and benches feature tops and seats made with 3/4" #9 expanded metal. They are welded inside a strong 2" X 2" angle iron frame

with a protective plastisol coating. Additional bracing under the frames uses 1 1/2" X 1/4" flat steel which is important to keep the rounded corners and frame edges straight and good looking over years of hard abuse.

## Canteen Series

Our Canteen Series tables and benches feature tops and seats made with 3/4" #9 expanded metal. They are welded inside a strong 2" X 2" angle iron frame with a protective plastisol coating. Additional bracing under the frames uses 1 1/2" X 1/4" flat steel which is important to keep the rounded corners and frame edges straight and good looking over years of hard abuse. These tables are perfect for food courts and courtyards.

## Web Style Tables & Benches

Web Style tables & benches offer ease of access to seating and convenience of clean up beneath. This series of tables also allows your imagination to run wild with the wide selection of patterns for the tops and seats. The 2 7/8" OD easy access frames add strength and durability. Mounting plates are standard and can be either bolted down to concrete for surface mounting application or left un-bolted for portable applications. Stationary frames for inground mounting are also available. The stationary models have an extra 30" length on the frame legs to allow for inground mounting applications. Solid cast aluminum surface mount covers (SMLCOVER) are available at an additional cost for that final finished look, see page 70.

## Series 9500 Bike Rack

The welded steel rack is supported by massive end posts. Steel has the Litch-Kicker finish. The 8-bike rack is 5' long, and the 14-bike rack is 10' long. Available in single or double sided racks.

Model 9500 10', 14-bike rack with Pine ends and brown enamel steel rack

Left: Model 9547 5' Bike Rack with recycled ends and black steel rack

## Series 9200 Landscape Bollards

Landscape bollards are 5' in length, with 3' exposed. They are available in pressure treated Pine, Redwood or Earthcare Recycled Plastic.

Model 9200 Landscape Bollard in pressure treated Pine

## Series 5200 Mall Planters

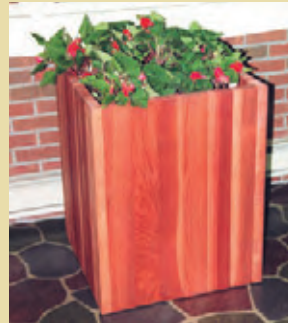

The contemporary styling of these handsome planters make them ideal for use in lobbies, meeting places, shopping malls as well as outdoors. Available in Oak, Redwood or Pine. Construction utilizes 2"X4" nominal boards and is available with optional polyurethane coating for indoor use. Furnished with galvanized steel liners for no mess plant upkeep. An 11-gauge steel recessed toe kick is attached to keep wood from contacting the ground.

Model 5288 7' Round Planter in Redwood. Planter height is 30', shipped assembled.

Model 5204 4' Square Planter in Redwood. Planter height is 30', shipped assembled.

Model 5203 2' Square Planter in Redwood. Planter height is 30', shipped assembled.

All are available in many custom sizes and different wood choices, including recycled plastic!

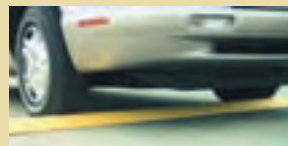

## Series 9900 Parking Stop

Earthcare Recycled Plastic in 3', 4' & 6' lengths in colors shown below.

## Series 9900 Speed Bump

4', 6' or 9' lengths of Earthcare Recycled Plastic in yellow.

## Series 9600 Grills

The grills are fabricated with 7-gauge steel plate, finished with a non-toxic enamel. Surface mount and single post in-ground available.

Model 9605 Double Pedestal Grill

Model 9604 Campfire Ring

Model 9601 Campfire Adjustable Grill

## Series 9100 Trash Can Rest

The Series 9100 Trash Can Rest keeps refuse "off limits" to animals. The direct bury post is constructed of pressure treated Pine with steel attachments.

Model 9100 treated Pine Trash Can Rest with 2 Model 9110 30 gallon galvanized cans

## Series 5400 Litter Tops

Litter tops are available in metal or plastic, in flat or dome style.

Model 5475 32 Gallon only Plastic Dome Top with self-closing door

Model 5470 32 Gallon only flat plastic top with rotating lid

Model 5480 22 Gallon only Metal Dome Top with self-closing door. Available in brown or white.

## Ornamental Lattice and Handrails

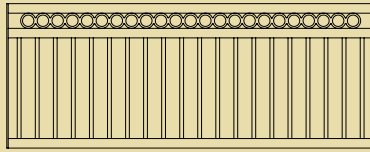

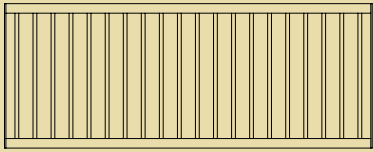

Litchfield Landscape Elements offers a variety of standard and custom laser-cut patterns for steel handrails and lattice. Select from the styles shown here, or send us a pattern of your design for custom fabrication.

Optional architectural steel bands are available for Square, Round (with an example of steel bands shown) and Rectangular columns. The location and thickness of the steel bands on the columns can be specified allowing you to further customize your shelter design. Stepped columns are available in steel or laminated wood (on some shelters).

## Series 9300 Cupolas

A variety of cupolas are available for most shelters, in both wood and steel. The size is scaled to fit the shelter you select. Wood cupolas are available in Pine, Western Red Cedar or Redwood. Steel cupola roof colors will match your shelter's metal roof. Many other custom cupolas are available besides what is shown here so please inquire when considering your selection.

## Series 9400 Weathervanes

Handcast aluminum weathervanes with satin black oven-cured enamel finish are 30" high. Ornaments are pewter or gold bronze finish.

Choose from these styles:

Deer, Sailboat, Horse, Country Doctor, Duck, Pheasant, Eagle, Retriever and Rooster

## Perfa-Lite™ Perforated Metal Roofing

Perfa-Lite™ is an All-New alternative to fabric roofing. Perfa-Lite™ blocks up to 44% of harmful UV rays consistently throughout the life of the shelter while allowing plenty of light to shine through for a brighter more pleasant outdoor experience. Perfa-Lite™ utilizes hot rolled steel perforated panels with 3/8" holes at 9/16" staggered centers (custom sizes are available). The material has an 11 gauge minimum thickness with 40% open area and features our "Baked-on" Litch-Kicker finish over an E-coat primer (see Litch-Kicker specifications on page 76). Perfa-Lite's incredibly durable steel panels do not need to be taken down with the change of seasons, require no maintenance and are vandal proof.

Perfa-Lite Perforated Metal Roof Panel

## Optional Metal Finishes

Hot-dipped galvanizing, E-coat primer, and Powder Coat finish are all available at an added cost. Call factory for pricing.

## E-Coat Primer

E-Coat Primer is the result of a process called Electrodeposition coating which uses electricity to deposit a smooth, thin, uniform layer of plastic coating on the surface of a metal part.

Before metal parts receive the E-Coat formula they go through an eight stage state-of-the-art pretreatment process. Each metal part is first cleaned with a powerful combination of spray and dip alkaline cleaners in order to remove dirt, oils, and other contaminants, which can interfere with the development of good paint adhesion or could cause surface defects. Immediately following the cleaning stages, the parts receive a fresh water rinse and an activator salt immersion to improve the next step, phosphate coating. Parts are cleaned and rinsed again, then immersed in a zinc phosphate tank. Zinc phosphate converts the metal substrate to a crystalline surface, creating a good surface for paint bonding and improving corrosion resistance. The part is again rinsed to remove any excess phosphate then immersed in a non-chrome sealer to reduce porosity and prevent flash rusting. The parts are once again rinsed with deionized or reverse osmosis water prior to epoxy coating. After the part has been cleaned and zinc phosphated, it is immersed in liquid epoxy and coated to a smooth and uniform 0.7 - 0.9 mils.

Since the coating is applied as a liquid, the epoxy travels into crevices and trouble spaces to assure that outside moisture cannot invade the coated area and cause rust. The end result of this aggressive pretreatment and E-Coat application is a part that is thoroughly cleaned and fully encapsulated in plastic. The epoxy-coated part is then cured in an oven at approximately 400 degrees Fahrenheit for at least 20 minutes. E-Coat Primer can be expected to withstand 1000 hours or more in a salt spray chamber. These 1000 hours are thought to be approximately equivalent to 10 years of performance.

## Powder Coating

Powder Coating is an additional charge option for

steel components on steel frame shelters. Choose powder coat color(s) by referencing an RAL number listed on an RAL color chart. For an RAL color chart, please contact the factory.

The powder coating process is a complete corrosion protective process. All steel components are cleaned, pretreated, sealed and preheated to assure proper powder thickness and adhesion through a 5 stage, dual zone curing process. The polyester powder is electrostatically applied and oven cured at 375 degrees to a mil thickness of 3.0 - 6.0.

## Wood Finishes

**Walnut Brown Oil Stain** is our own basic oil-base stain that gives wood a deep, rich tone. It is used mostly on Pine, but is available as a finish on other woods.

**Sher-Wood Homoclad Sealer** is a moisture-resistant sealer which protects against rot and discoloration. It penetrates deep into wood pores, increasing dimensional stability. This sealer is used on Southern Yellow Pine, Redwood and Oak.

## Optional Wood Finishes

**Nelsonite** is a wood stabilizer that guards against swelling, shrinking and warping. It repels water, and acts as a preservative. Nelsonite is used on braces and components of truss-type shelters.

**Polyurethane** is a high gloss, clear finish, which highlights wood to a furniture finish. Polyurethane is to be used for indoor furnishings only.

**Sikkens** is a super translucent finish based on special oil-alkyd resin combination and select ultraviolet absorbing pigments. It gives a long-lasting "furniture look" finish.

## Treated Lumber Options

**ACQ (Alkaline Copper Quaternary) Pressure Treated** Southern Yellow Pine provides protection from a broad spectrum of fungi and termites, preventing rot and decay.

**Treated** Southern Yellow Pine with a stabilizer such as a homoclad sealer.

## Available Woods

**Pine.** This wood is strong and sturdy. Both treated and untreated Pine are used in most shelters. Pine is also an economical alternative for benches, tables and

litter receptacles. It stains and finishes well. Note: when pressure treated woods are used, allow for some checking and cracking. This will not affect the strength or integrity of the wood, and will not merit replacement lumber.

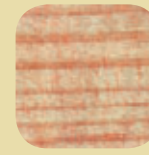

**Western Red Cedar.** This species has a reddish tint, and is used in shelters for roof decking and fascia. It is very durable, and is naturally resistant to decay, infestation and checking.

**Oak.** Only number 1 grade Oak is used. Noted for its strength and rich grain, Oak is ideal for indoor benches and site furnishings. Oak is not recommended for outdoor use. Any Oak

furnishings used outdoors will not be covered under warranty.

**Douglas Fir.** Clear vertical grain, where a rich, off-white wood is required with similar characteristics to Pine. It can be used as roof decking in shelters, or substituted for Pine in benches, tables and litter receptacles.

**Redwood.** Redwood is naturally resistant to decay, and it weathers nicely. Clear, all-heart Redwood is beautiful and stylish, keeping a consistent color

throughout. Construction heart Redwood is used where thicker Redwood is desired. It has the same characteristics as clear all-heart, but allows for small, tight knots and variations in color.

**Mahogany.** A beautiful dark reddish-brown hardwood which has a natural luster. A durable wood with rich tones, it is a natural for outdoor use in benches, tables and litter receptacles.

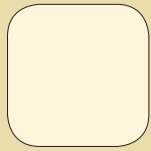

**Ipe.** May also be known as Pau Lope. This wood is 3 times harder than Oak, making it an excellent choice for outdoor uses, and where vandal resistance is needed. It

is olive brown in color, but allow for some variations in tone. It weathers to a beautiful gray.

**Purpleheart.** This hardwood is similar in characteristics to Ipe. It is a vivid purple, and weathers to a natural silver-gray. This wood is difficult to carve, and extremely fire resistant.

# LITCH-KICKER STEEL FRAME FINISH COLORS AND SPECIFICATIONS

Adobe Tan

Forest Green

Black

Brown

Select a frame finish from the choices above or provide us with an RAL number to create a custom color (at an additional charge).

Test Type	Performance and Properties
Color	Product duplication to a Delta E of 1.0 max.
Gloss Retention	Maintains 75% of its initial gloss level after 500 hrs in QUV
Hardness	After full curing, pencil hardness exceeds an "H"
Adhesion	Rating Level: Excellent
Impact, Direct	100+ in. lb chipping resistance: Rating Level: Excellent
Water Resistance	Passed 7 days immersion without any degradation to film
Humidity Resistance	Passed 7 days humidity cabinet
Gasoline Resistance	30 minutes immersion, no wrinkling, blistering or color change
Hydraulic Resistance	30 minutes immersion, no wrinkling or blistering
Abrasion Resistance	200+ lb. falling sand. No wear through.
Salt Spray	Direct exposure: B1000 - 500+ hrs
Solvent Resistance	50+ mek rubs.
VOC	3.5 MAX

## Protect your Investment from the Elements with the Most Durable Frame Finish in the Industry!

All steel frame and steel furnishing components are finished with our Litchfield exclusive "Litch-Kicker" Baked-on steel frame finish. Before the welded raw steel is sent through our paint line it is sandblasted to a near white condition to eliminate mill scale, dirt & oils, and weld spatter. The sandblasted steel is then coated with the Litch-Kicker catalyzed epoxy/polyurethane premium paint finish, and oven cured at over 400 degrees to create a durable, uniformly applied, beautiful coating in your choice of Adobe Tan, Forest Green, Black or Brown. Many of the colors in the metal roof color charts on page 77 are available at an up-charge.

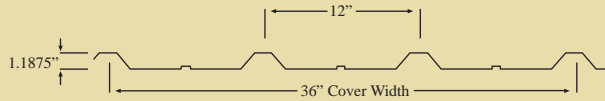

The strength of the Litch-Kicker finish system is due to the fact that it combines the properties of two well-known high performance systems which are Epoxy and Polyurethane. The excellent adhesion properties of Epoxy combined with the tremendous durability of Polyurethane make Litch-Kicker the best performing wet-coat system for exterior structural steel. All while eliminating the health and environmental issues of typical polyurethanes by formulation without the use of isocyanates.

Testing results show Litch-Kicker to be equal to or better than standard powder coating in corrosion resistance. And Litch-Kicker has the advantage over powder coating by being easier to fix in the field when the finish is damaged during shipping or construction.

# WARRANTY AND TERMS

## Litchfield Landscape Elements, Inc. Limited Shelter Warranty

1. Litchfield Landscape Elements, Inc. warrants to the original purchaser of its structures that it will furnish materials free from manufacturing defects for a period of ten (10) years from the date of invoice with the following terms and conditions.

2. This warranty is in effect only if the structure has been assembled and installed strictly in accordance with Litchfield Landscape Elements, Inc.'s setup instructions and good construction practices, and has been subjected only to normal use and exposure.

3. Abnormal conditions are specifically excluded from coverage under this warranty.

4. Contingent liability is specifically excluded. Litchfield Landscape Elements, Inc. has the option to repair or replace any defect in materials.

5. The owner shall notify Litchfield Landscape Elements, Inc. to arrange for an inspection within thirty (30) days after discovery of any defect under this warranty, and before any alteration

or repair is made or attempted.

6. Litchfield Landscape Elements, Inc. is in no way responsible for damages caused by others, including: vandalism, fire, lightning or acts of God, corrosion caused by moisture, chemicals, air or salt spray, pollution, or infestation by rodents or other vermin.

7. This limited warranty shall be null and void if the owner makes any alterations in design.

8. Litchfield Landscape Elements, Inc. shall not be responsible for insurance standards or code compliance changes that may be required in the future

9. Litchfield Landscape Elements, Inc. shall not be responsible for delays due to missing, stolen, or non-conforming parts. Any rework of non-conforming parts must be authorized by Litchfield Landscape Elements, Inc. prior to the time that the rework is done.

10. Some fitting and field cutting of parts will be required, and will not be subject to back

charges or cause for rejection.

11. In the unlikely event of failure, Litchfield Landscape Elements, Inc. reserves the right to alter the design, color, or contributing factors to rectify the condition and help prevent any future recurrence(s).

12. Litchfield Landscape Elements, Inc. specifically excludes any implied warranty of merchantability, of fitness, or of purpose, and there are no warranties, which extend beyond the description of the face hereof.

13. Under no circumstances will Litchfield Landscape Elements, Inc. be responsible for any consequential or incidental damages due to breach of warranty, and such damages are specifically excluded from this warranty.

14. The pre-finished metal roof manufacturer warrants to the purchaser that when used for exterior applications under normal environmental conditions the painted or unpainted metal roof panels will meet the following standards:

Multi-Rib & Max-Rib Metal Roof Panels:

a.) For a period of thirty (30) years from the date of shipment (ten [10] years for Brite Red), the coating system will not crack, check, peel (lose adhesion), chalk or change color (fade).

Standing Seam Metal Roof Panels:

a.) For a period of twenty (20) years from the date of shipment (ten [10] years for Brite Red), the coating system will not crack, check, peel (lose adhesion), chalk or change color (fade).

For a period of thirty (30) years from the date of shipment, painted or unpainted metal roof panels, if erected within the United States, will not rupture, fail structurally, or perforate due to exposure to normal environmental conditions.

Subject to the conditions, limitations and exclusions set forth by the pre-finished metal roof manufacturer.

15. Litch-Kicker is the structure's steel frame finish (unless specifically noted). First, all steel is

sandblasted to remove dirt and oils. Then, the Litch-Kicker Paint Finish, which is a two component system comprised of a rust inhibitive Epoxy finish coated with Polyurethane, is applied. The manufacturer warrants Litch-Kicker to the original purchaser for a period of ten (10) years under normal environmental conditions. The structure may require field painting in the future to help prevent corrosion. Frequency of field painting will depend on (1) the severity of your weather conditions, (2) your storage procedures used before installation, and (3) the care taken by the installer so as not to scrape or scratch finish during installation. Litchfield Landscape Elements, Inc. assumes no responsibility for the finish paint and maintenance of finish paint applied by the contractor in the field.

16. Any Questions? Please contact us by mail, phone, e-mail or on our website at the contact information given on the back cover of this catalog.

## Litchfield Landscape Elements, Inc. Terms and Conditions

**Specifications:** Specification information is available upon request for all of our shelters and site furnishings. Standard design loads on shelters are between 20 lbs. and 45 lbs. per square foot live load, with 90 to 140 miles per hour wind load. If engineer's sealed drawings and calculations are required on shelter plans, please call the factory for cost estimates since fees vary widely by type of shelter and area of country. Shop drawings are available at the discretion of Litchfield Landscape Elements management. Product specifications in this catalog were correct at the time of publication; however, Litchfield Landscape Elements, Inc. reserves the right to change specifications at any time to reflect product improvement.

**Custom Designs:** We welcome the opportunity to develop specific products and specifications to meet your custom design requirements. Do not hesitate to call since some inquiries only involve minor modifications. Occasionally, new designs require extensive investigation and will require a pre-paid design and engineering fee. However, upon receipt and shipment of the order, the fee will be offset in the prices of the approved new product.

**Prices:** Prices are effective as of the date of this catalog, and are F.O.B. Litchfield, Michigan. Freight weights shown are approximate and may vary. Freight is calculated separately, and not included in the pricing. All quotations are firm for 60 days, after which, Litchfield Landscape Elements, Inc. reserves the right to adjust pricing and freight costs to reflect market fluctuations. Applicable taxes are added to invoices unless a tax exempt certificate is provided with order. Prices are subject to change without notice.

**Terms:** Payment in full is required in 30 days after delivery. These net 30-day terms are extended to establish customers who can provide documentation of credit worthiness. If documentation of credit worthiness cannot be provided, payment in full must accompany the order. A service charge of 15% per month will be assessed on the balance of all accounts over 30 days old. No retainages are accepted.

**Delivery:** Depending on the size of the shelter to be delivered, either a common carrier or private carrier will be used. Whenever possible, shelters will be delivered to the job site. Detailed address and directions must

accompany the order. Litchfield Landscape Elements, Inc. and their carriers shall have full authority to stop shipment at the point nearest the job site where road conditions or other hazards do not allow the carrier to safely reach the job site. Transporting of the material from this point on will be the responsibility of the buyer. The carrier's decision in this situation will be final. All freight charges are added to the invoice unless collect shipment arrangements are made when ordering. Time of delivery can vary. Litchfield will make every possible effort to deliver within the pre-determined time period (usually 4-8 weeks or sooner after receipt of design approval). Due to the nature of our product, unforeseen delays production and/or delivery are possible. Litchfield will not honor or be held accountable for liquidated damage charges of any kind whatsoever.

**Receipt of product:** Unloading of the product is the buyer's responsibility. In most cases, a forklift truck is required by and is the responsibility of the buyer for unloading. Buyer or authorized agent must inspect shipment at time of arrival and verify it with the bill of lading. The bill of lading mailed to you at the time of shipment is our receipt from the carrier. We therefore are released of all responsibility

of loss or damage in transit. Damages or shortages shall be noted on the delivery receipt and shall be reported to Litchfield Landscape Elements, Inc. immediately by phone or in writing. Failure to report shortages or damages within two business days of receiving product shall be deemed full and complete acceptance of materials as delivered and will result in a minimum of 1/2 up to and including 100% of replacement cost including shipping.

**Material Storage:** It is the sole responsibility of the buyer to provide for protection of the material after arrival at destination. Storage of wood components and other materials must be in a dry place out of the sun and other elements. Exposure to the sun, rain and other elements can cause warping, staining and other damage. Temporarily stored materials should be placed on blocks well off the ground and separated to allow air circulation around each member. Moisture resistance covers should be used on top and bottom material stacks.

Installation and Assembly: Detailed setup and assembly instructions are included in each shipment along with the hardware. To facilitate the owner's planning of desired site

and concrete work, and shelter layouts and installation, setup instructions are sent certified mail after receipt of order. Some fitting and cutting of parts may be required because of field conditions and will not be reason for rejection or back charges. Touch-up and finish painting and staining shall be the responsibility of the installer. Litchfield Landscape Elements, Inc. assumes no responsibility for the condition of factory-applied finishes damaged or altered by installation or storage procedures. No corrections or alterations are to be made to our products without permission. Back charges must be pre-approved before any product corrections are performed.

**Cancellations and Returns:** May be made only with the consent of Litchfield Landscape Elements, Inc. and any and all costs incurred from date of order are subject to charge. A 15% handling charge, in addition to return freight charges, is made on return of products ordered in error. Custom products and Pre-cut Metal Roofs are non-returnable.
