# From Humble Beginnings to Industry Leaders

### We were founded...

In 1983 Donald Strickland and Anthony Strickland started making seesaws and swing sets out of a converted mechanic's garage. The original Playland was truly a family affair with the father and son team both fabricating and selling the company's products.

### Along the way...

In 1990 Anthony Strickland took over the company as President and CEO and set out on a course to develop the beginnings of what is the current product line of modular play systems, originally and fondly named Playland Systems.

### The "Playground People" Merger

Playland became a division of Superior International Industries in 1997. SII, as their customers know them, was founded in 1991 by Rob Pepper and Ray Derbecker as a components supplier to both the commercial and residential playground industry. While building on their customer base, they partnered with one of the original founders of Playland, Anthony Strickland, in 1997 to form the new Playland. This new partnership was unique because, as a group of investors and partners, they have spent their lives in the playground industry. They proudly say that Playland is one of the only playground companies in the market today that has leaders that are lifelong "Playground People."

### Today's Playland

Then and now, Playland's mission is to build high quality commercial outdoor play products at an affordable price while maintaining the highest safety standards in the industry.

With over 300,000 square feet of combined manufacturing space and utilizing in-house technologies of rotational molding, metal fabrication and custom fabric forming, we produce 95% of the products we sell. In a multi-phase manufacturing process, Playland uses Dura-Guard™ Galvanized Weld Protection, a pre-sanding and hand cleaning power prep process, and finally a baked-on powder-coat finishing process.

### Engineered for Fun!

Quality engineering returns quality results. The Playland design team utilizes SOLIDWORKS™ engineering software for new product engineering and implementation. We live every day for one simple reason... to design, build and deliver the highest quality products with ultimate PLAY-ON POWER!

# Playgrounds Packed with Play-on Power!

To meet your space and budget needs, Playland offers the following product lines:

## Expedition

- Designed for heavy use, large numbers of users and bold impressive appearance
- 5" diameter steel posts, 48" deck grids, and 30" plastic tubes
- Fully modular, available for ages 2-12

## Adventure

- Perfect for limited space and smaller budgets, but the same durability and quality as Expedition Series.
- 3.5" diameter steel posts, 36" deck grids, and 24" plastic tubes
- Fully modular, available for ages 2-12

## Recycled

- Playland Recycled playgrounds offer a unique solution for our environmentally conscious clients.
- Our recycled plastic line is a cost effective option that uses 100% recycled plastic posts...made from thousands of reclaimed plastic jugs.
- Standard Expedition (5") units may be reconfigured to use our recycled posts.

## ISO Certified

To ensure that you get the best quality product, Playland is proud to announce that we are now ISO certified to ISO 9001:2000 standards. See our certificate on page 141.

## IPEMA Certified

In the interest of playground safety, IPEMA provides a 3rd Party Certification Service whereby a designated independent laboratory validates a participant's certification of conformance to ASTM F1487, Standard Consumer Safety Performance Specification for Playground Equipment for Public Use. The use of the corresponding logo in the Playland Guidebook signifies that Playland has received written validation from the independent laboratory that the products associated with the use of the logo conforms with the requirements of the indicated standard. Check the IPEMA web site ([www.ipema.org](http://www.ipema.org)) to confirm product certification.

**“Playgrounds must provide activities that are appropriate for the physical, social, emotional and learning level of the children using the playground.”**

-Ken Kutska,  
Points About Playgrounds

## Age Specific Play

Our catalog is divided into color coded age groups. Each age section includes some of our most popular play structures as well as brand new designs. There are many great choices to fit your needs and budget.

## By the Numbers

In addition to age groupings, we also provide vital information for each structure. Play structure Series (Expedition/Adventure, etc.), playstructure unit number, child capacity, actual dimensions, ASTM required use zones. Shipping weight, ADA requirements and a list of all play events.

## Example

## Create A Playground One Phase At A Time

Phasing is an excellent way to limit your initial funding needs. You can match a part of your playground plans to your first year's budget. You can begin with your ADA access point and expand into slides and climbers.

Annual additions, in line with annual budgets, can be made to complete your original playground vision. Note how the unit pictured here was accomplished in three years.

By phasing your playground; landscaping, independent events and site amenities can be included in your budget from the beginning.

So, remember to create a complete plan. We'll show you how to make your fun station one phase at a time!

### Mission Control

- Exciting Playground Goals
- Careful Phasing-in of Components
- Annual Budget Line

### Example:

| Unit Number    | PS3-20460                 |
|----------------|---------------------------|
| Phase 1        | \$12,178                  |
| Phase 2        | \$4,658                   |
| Phase 3        | \$5,367                   |
| Total Price    | \$22,203                  |
| Child Capacity | 44                        |
| Actual Size    | 38'x22'                   |
| ASTM Use Zone  | 53'x36'                   |
| ADA Requires   | 0 ground level components |

### Phase I

#### 7 Play Events Featuring:

- Rock Wall Climber
- Education Climber
- Tri Rung Horizontal Ladder
- Wave Slide
- Sliding Pole
- ADA Transfer Station
- Coil Climber

### Phase II

#### 12 Play Events Featuring:

- Alpine Thunder Slide
- Alpha Panel
- Talk Tubes
- Store Front Panel
- Pipe Wall
- Post Mount Steering Wheel

### Phase III

#### 15 Play Events Featuring:

- Bedrock Climber
- Triple Rail Slide
- Log Roll
- Tic-Tac-Toe Panel
- Lily Pad Bridge

## We've Been to School on PreSchool

The focus for this age group is on social interaction; activities that make for great group fun, with just the right level of physical challenge. Activity panels, slides, climbers and swings all meet or exceed ASTM and IPEMA safety guidelines for this age group.

The 2 to 5 age group requires guard rails and barriers at much lower deck heights than the older age group. Deck heights for horizontal ladder launches can only be 18" high. The height of the horizontal ladder itself can not exceed 60" from the surfacing.

Playland proudly offers The Original Kidscenter™ line for the ages of 2-5. These units are packed with fun and are great for the budget-minded consumer. Offering 3 models starting at \$2,593, The Original Kidscenter™ puts play value back in your playground.

We also offer our modular Expedition (5") and Adventure (3.5") series structures for ages 2-5. Pick from one of our many catalog units, or allow us to design one to fit your needs.

KidsCenter™ #5

# Grouping components to meet the need of a wide age group

Sometimes separate playgrounds are not an option, so structures must be created and designed to meet the needs of both age groups. Here are some of the main issues when grouping components:

1. Younger children require barriers on lower decks.
2. Older children require wider slide beds.
3. Overhead ladders must be lower to accommodate younger children.

To accommodate both age groups, both sets of guidelines must be met. You must also make sure to limit use of the playground to one age group at a time or, if not possible, you must ensure there is enough supervision to create a safe environment for all the children.

Playland has comprehensive knowledge of how to put a playground together that meets the needs of the 2 to 12 age group. You design the structure; we will make sure it meets the regulations.

We offer our modular Expedition (5") and Adventure (3.5") series structures for ages 2-12. Pick from one of our many catalog units, or allow us to design one to fit your needs.

# Hand, eye and playground coordination

Here, our focus is more on physical challenge. Major muscle development is the source and inspiration for component and playground design. We've zeroed in on this group with challenging horizontal ladders, climbers and slides. By emphasizing popular components and combining them dynamically, our playgrounds create energy, focus attention and create a great new place for social interactions.

The 5 to 12 age group requires wider slide bedways than the younger children. Horizontal ladders may launch from decks up to 36" high, and may have decks up to 96" above surfacing.

**allied**  
TUBE & CONDUIT

# ACTIVE

Fitness Focused Play

Playland offers the best value in the industry with our Active Play Series, a ground based concept that features motion events and overhead climbing and traversing. These structures offer incredible play value including all the fun, without the 2 most costly elements of traditional playstructures: roofs and decks.

Be creative with any number of combinations of our Wiggle Walk, Wheel Swinger, Syclone Spinner, Rail Glide, Chain Link Climbing Walls, and Arched or Curved Horizontal Ladders.

Now improved with a single step lily pad, children can have easier access to these fitness-focused play events.

**Notice: Individual freestanding activities available, however posts are sold separately.**

For Ages  
**5 to 12**

**\$31,590**  
5" Only

### 18 Play Events Featuring:

- Syclone Spinner

## Recycled Playstructures (pages 59-65)

Playland Recycled playgrounds offer a unique solution for our environmentally conscious clients.

Our recycled plastic line is a cost effective option that uses 100% recycled plastic posts... made from thousands of reclaimed plastic jugs.

Our recycled plastic posts are insect, termite, and salt air impervious. They never need painting or refinishing, and have an easy to maintain surface.

The decks featured in our recycled playgrounds are the same high quality 12 gauge steel that is used in our traditional structures, but are vinyl coated to further give the recycled units the natural look our clients are seeking.

Available in 5" posts only

## Themed Units (pages 66-69)

The units featured in this section are just a few examples of Themed Units developed by our design department.

Themed playstructures encourage imaginative play and can reflect neighborhood characteristics and increase aesthetics. Adding a theme is also a fun and unique way to add visual appeal to a traditional playstructure. Themed play can be appropriate for many instances, such as our Playland Express at a Historic Train Station Park, a Jungle theme at a zoo, or a boat near a waterway park.

We encourage you to challenge our designers to create a theme that is perfect for your neighborhood or park!

# The Soul of a Fun Machine: Playstructure Components

You can create a magnet for spirited, safe play. Choose from over 100 modular play components. Each one meets a child's high standard for **Play-on Power**. And, each meets or exceeds applicable safety standards.

Design your playground component-by-component or simply choose one of the Playground Portfolio units and customize it. You can choose from many challenging climbers and activity panels that educate and entertain, and the industry's most popular horizontal ladders, tube slides and much, much more.

## Decks

Decks are made from 12 gauge hot-rolled punched steel that is plastisol coated. The perforated surface has holes that are approximately 5/8" in diameter after coating and 1.25" on center spacing between perforations. All of our decks mount flush to one another or at offset heights to create challenge and interest. Kick plates are available for 8" and 12" offsets to meet required safety standards. See colors on pg.143.

### Diagonal

5" only used for deck to deck transitions. Available in 3.5" & 5".

### Square

The Square Deck is available for the 36" and 48" grid and is the most basic of our decks.

### Hex

The Hex Deck is available for the 36" and 48" grid and is the equivalent of six triangle decks.

### Half Hex

The Half Hex Deck is available for the 36" and 48" grid and is the equivalent of three triangle decks.

### Sun

The Sun Deck is a functional way to increase deck area without the need for additional posts. 48" grid only.

### Triangle

The Triangle Deck is available for the 36" and 48" grid and is the foundation of the hex decks.

### Tower

The Tower Deck is designed to allow multi-tier structures up to 8' in height. This is also available for making octagonal deck structures. 48" grid only.

### Rectangle

The Rectangle Deck is the essential piece that allows 48" grid components to be used on the 3 1/2" Adventure Series.

Our large selection of accessories add fun and function to your Playland playstructure.

## Steering Wheel

Add fun to your play structure with this post mounted accessory.

## C-Grab Handle

These are a simple way to add hand support in areas where children need a helping hand.

## Sliding Pole

Deck Heights: 24" - 72"

## D-Grab Handle

These handles give a helping hand in tight spaces where C-Grab handles will not fit.

## Chin-Up Bar

Another great outdoor gym event. Chin-ups are still one of the best ways to develop upper body strength and stamina. Lower bars can be used for turning.

## Talk Tube

Children have fun talking long distance with this great activity. Sound is conducted through underground tubing from one station to another. Talk tubes are used in pairs that can be attached to a playstructure or freestanding (as shown).

## Log Roll

The timberland comes to every playground! This balance building event is made rugged with rotomolded plastic in your choice of colors. It rotates on a solid bearing surface. This roll features raised knobs for traction and comes complete with grab handles.

## Panel Ladder

For use between two decks with height differences of: 16", 24", 36", and 48"

## Safety Signs

Every playground needs these essential child designation 3/4" polyethylene signs. Signs come mounted on a 2 3/8" freestanding post. 60 lbs.

Item Numbers:

- 30022025 (2 to 5)
- 30022212 (2 to 12)
- 30022512 (5 to 12)

Price: \$236

# Stairs/Ramps

All stairs are available as ground-to-deck or deck-to-deck units. Stairs are made from 12 gauge hot-rolled punched steel that is plastisol coated. Additional features include:

### Treads & Stringers

- 12-gauge hot-rolled steel
- Plastisol coatings
- Perforated surface (1.25" o.c. between perforations)

### Handrails, Gates & Barriers

- 1.25" o.d. round steel tube
- Powder coating

You can also make your play structure ADA accessible with an ADA Ramp or Transfer Station

## Deck-To-Deck Stairs

Available in 21" and 33" deck increments. Also available; ADA 16", 24" and 36" deck increments

## Ground-To-Deck Stairs

Available in 24", 36", 48", 60", 72" and 96" deck heights

## 12" Transition Arch Not ADA compliant

## Single Step

## ADA Transfer Station

Deck Heights: 36" and 48"

## ADA Ramp 48" grid only

4', 6' and 8' lengths available. ADA ramps can be deck-to-deck or ground-to-deck. These ramps are available with barriers or handrails.

## Components: Bridges

All bridges can be used on 3.5" Adventure or 5" Expedition Systems and are in 8' length unless otherwise noted.

\*Available in freestanding

\*\*48" grid only

### Pipe Bridge

Constructed with durable polyethylene gates and galvanized steel rails with a powder-coat finish. Use between two decks of equal height. Available for 24" to 96" deck heights.

### Bubble Wall Bridge

Made from durable rotomolded plastic, our bubble wall bridge is a unique new traversing deck-to-deck climbing bridge. Available in any of our plastics colors. For use on any deck height between 12" to 48". Available in 15.5' length.

### Chain Bridge\*\*

Constructed of uni-welded chain with a plastisol coating for more traction. Galvanized steel guard rails with a powder-coat finish. Use between two decks of equal height. 12" to 30" deck heights.

### Arch Bridge

Constructed of 12 gauge hot-rolled punched steel with a plastisol coating to increase traction. Side rails are constructed of durable polyethylene. Galvanized steel handrails with a powder-coat finish. Use between 2 decks of equal height. 12" to 96" deck heights.

### 90° Bridge

Constructed from 12 gauge hot-rolled punched steel with a plastisol coating to increase traction. Galvanized steel guard rails with a powder-coat finish. Use between 2 decks of equal height. 24" to 72" deck heights. 48" and 36" grids.

For Ages  
5 to 12

For Ages  
5 to 12

### Inch Worm Bridge

Constructed of durable polyethylene with textured finish for traction. Galvanized steel frame with powder-coat finish. Torsion pivot base for side-to-side motion. 24" deck height only.

### Challenge Bridge

Constructed of durable polyethylene with a textured finish for traction. Galvanized steel frame with powder-coat finish. Use between two decks of equal height. Available for 12" to 30" deck heights.

### Suspension Bridge

One piece bridge for durability and ease of installation. Constructed from 12 gauge hot-rolled punched steel with a plastisol coating to increase traction. Galvanized steel guard rails with a powder-coat finish. Use between 2 equal deck heights. Available for 12" to 96" deck heights.

For Ages  
2 to 12

### Lily Pad Bridge

Constructed of durable polyethylene with a textured finish for traction. Galvanized steel frame with a powder-coat finish. Use between two decks of equal height. Available for 12" to 48" deck heights. Also available as ground to deck.

## Components: Overheads

Horizontal Ladders promote physical fitness and develop upper body strength as well as hand-eye coordination. They connect between decks or from an end climber to a play system. They can also be ordered as freestanding events with two end climbers. Horizontal ladders are available for Adventure Series, Expedition Series or freestanding units, and are powder-coated to your choice of colors. See Page 143 for color selection.

### Wavy Deep Rung

Another great challenge. Large hand hold areas plus asymmetrical heights make this a #1 eye-hand coordination, upper-body developer.

### 270° Circle Ring

Metal hoops welded to a 270° circle make this a single deck launch play event. 48" Grid Only.

### Track Ride

Children glide easily along this high quality Track Ride. Aluminum housing protects track mechanism giving you years of track riding fun. Heavy duty handle with one-of-a-kind self-braking system that keeps the handle from being thrown end-to-end.

### Offset Straight Rung

This is your fun connection for offset decks! Twists and turns make this ladder even more challenging.

## Wavy Straight Rung

This horizontal ladder provides great play-on-power! The horizontal ladder no playground should be without.

## Trapeze Ring

A Playland favorite! These sturdy polished aluminum trapeze rings attach to the frame with clevis fasteners for safety.

## 360° Orbital\*

Fun comes full circle with this straight rung ladder. A great challenge for every child who wants to make it all the way around! 48" Grid Only.

## Arched Straight Rung\*

With its incline and decline, this horizontal ladder adds a new fun look to your playground.

## Single Parallel Bar

The classic hand-over-hand bar. While appropriate for all ages, this is a great first step play event.

## Double Parallel Bar

A great variation on the single parallel bar, this event is even more of a challenge and is just great fun.

## Rapid Rocker

This event provides an advanced upper body workout. A challenging piece that promotes coordination, dexterity and fun for the older child. 5" only.

## Tri-Rung

The Horizontal Ladder for any child ages 2 to 12. The big handles make gripping easy. And the angled ladder makes this an exciting deck-to-deck design element.

## Loop Rung\*

Each looped rung requires hand over hand reaching. Hands, wrists and forearms get a real workout, as well as the upper body muscles.

\*Indicates 48" grid only.

## Components: Climbers

Climbers are available in a wide variety of shapes and sizes. From Playland favorites like the Tire Climber, to the offset ascension of the Bubble Wall Climber, these activities provide fun and challenging deck access. Plastic climbers are rotomolded with UV stabilized plastic. All metal climbers are available in any of our powder-coated finishes. See page 143 for color selection.

When specifying your climber designs, note the available deck heights. Just indicate the type of climber you want and a Playland representative will make sure it is installed at the correct deck height.

**180° Loop-2-Loop**

Deck Heights: 60" only

\*Indicates 48" grid only.

**Bedrock\***

Deck Heights: 36" - 48"

Deck Size: 48" deck only

Only available on 36"x48" rectangular

**Bubble Wall**

Deck Heights: 24" - 48"

**Bubble**

Deck Heights: 36" - 96"

**Cargo Net\***

Deck Heights: 24" - 60"

**Chain Link**

Deck Heights: 48"& 60"

**Clover**

Deck Heights: 24" - 96"

**36" Mountain Climber**

Deck Height: 36" only

**Coil**

Deck Heights: 24" - 96"

**Concentration**

Deck Heights: 36" - 96"

**Deep Rung Arch**

Deck Heights: 24" - 72"

\*Indicates 48" grid only.

# Components: Climbers

**Education**

Deck Heights: 48" & 60" only

**Half Moon**

Deck Heights: 24" - 72"

**Lily Pad**

Deck Heights: 24" - 36"

**Loop**

Deck Heights: 36" - 48"

**60" Mountain Climber**

Deck Height: 60" only

**Man Hole**

Deck Heights: 24" - 96"

**3x Pentagon**

Deck Height: 60" only

**4x Pentagon**

Deck Height: 60" only

## Quick

Deck Heights: 24" - 96"

## Ring

Deck Heights: 36" only

## Rock Wall

Deck Heights: 36"-96"

## Snake

Deck Heights: 48" & 60" only

## Spiral

Deck Heights: 24" - 96"

## Tire

Deck Height: 60" only

## Tree

Deck Heights: 24" - 96"

## Zipper

Deck Heights: 24" - 96"

# Components: Slides

All of our molded slides are made with double wall construction for strength. They can be used on both Expedition and Adventure systems at the deck height shown and are available in all our standard plastic colors shown on page 143. \*48" grid only

**60" Triple Rail\***  
Deck Heights: 60" only

**Alpine Thunder**  
Deck Heights: 72" only

**3' Right Turn**  
Deck Heights: 36" only

**4' Right Turn**  
Deck Heights: 48" only

**Triple Rail\***  
Deck Heights: 36" & 48" only

Deck Heights: 48", 60", 72"

**360° Spiral**

Deck Heights: 72" only

**Chute\***

Deck Heights: 48", 60", 72", 84", 96"  
Please indicate straight or curve (left or right).  
Curved Chute Slides not available in 48" deck heights.

**Double Wall**

Deck Heights: 24", 36", 48", 60"

**Double Wide**

Deck Heights: 36" only

**Triple Chute** (Straight or Split)

Deck Heights: 60", 72", 84", 96"

# Components: Tube Slides

Sliding fun begins at the top of a tube slide! Our rotomolded high-strength plastic slides are available in 24" (36" grid) or 30" (48" grid) diameters in any of our plastic colors. See page 143 for color selection. Slides pictured below are 30" diameter. Four different configurations (straight, zigzag, 360° and 90°).

**360° Tube Slide**

Deck Heights: 72", 84", 96"

**Straight Tube Slide**

Deck Heights: 24", 36", 48", 60", 72", 84", 96"

**90° Tube Slide**

Deck Heights: 36", 48", 60", 72", 84", 96"

**Zig-Zag Tube Slide**

Deck Heights: 36", 48", 60", 72", 84", 96"

Please note when planning to indicate zig-zag left or zig-zag right.

Please note when planning to indicate curve left or curve right.

Crawl tunnels connect decks of the same or offset heights. They can also be designed to be freestanding. Crawl tunnels are made of high quality rotomolded plastic and are available for Adventure Series or Expedition Series in any of our plastics colors (see page 143 for color selection). All crawl tunnels come with spy holes for easy supervision of children and are available in 24" (36" grid) or 30" (48" grid) diameters. Other features include:

- 1st quality LDPE
- 3/8" wall thickness
- UV stabilized
- Anti-static inhibitors

## Inclined Crawl Tunnel

Connects two decks at 6", 12" or 24" height increments

## Straight Crawl Tunnel

Connects two decks of same height.  
Lengths as shown in your Playland diagrams.

## Curved Crawl Tunnel

Connects two decks of same height.  
Degrees of curve as shown in your Playland diagrams.

## Zig-Zag Crawl Tunnel

Offsets two decks of same height by 24".

## Wavy Crawl Tunnel

Connects two decks of same height.

# Components: Activity Panels

Activity panels are available for 36" and 48" grids. They can be installed at deck level, below deck heights greater than 48" or freestanding.

All panels are constructed of 3/4" heavy duty high density polyethylene (HDPE) sheet plastic. They resist fading and warping for a lifetime of activity.

See page 143 for color selection.

## Timber Borders & Accessories

12" Tall Timbers available in black or any of the standard plastic colors shown on page 143. 12" Timbers require 30" timber stakes. These timbers also work great with our special ADA wheelchair access ramp. This heavy duty ramp works well for establishing traffic patterns on your playground. 6" tall timbers are available in brown only and require 24" timber stakes. 4' timbers require 1 stake per timber and 6' timbers require 2 stakes per timber.

### Architectural Timber Borders

These new architectural borders are cast from actual masonry accents to compliment your environment.

**ADA Landscape Access Ramp** 48"x120" (with stakes)

## Barriers

These devices are essential for directing traffic throughout the play structure. Barriers keep decks safe, but they can also be an important play element. Barriers can be plain pipe walls or play activities, such as a pipe wall with wheel.

**Pipe Wall w/Wheel**

**Timber Borders**  
48"x12" and 48"x6"  
borders shown

## Commercial Use

|-------------------------------|------------|----------|-------|
| 4'L x 6"H Timber (Brown Only) | 9062200508 | 3.5 lbs. | \$17  |

## Components: Roofs

Roofs are an essential part of your playground environment, providing shade for hours of safe fun. They are also an important feature in the design of your playground.

Roofs are available to fit both Expedition and Adventure series. Choose whatever color you like from our color selection on page 143.

We also offer an archway to enhance the look of your playground. Plan archways into any deck that you wish to accentuate as an entryway, or use them to balance your playground visually.

### Modular Shade Roof

Reduce UV exposure and provide a color play environment with a modular shade roof. Additional shade products shown on page 130.

**Gabled Shingle Roof**

### Archway

Give a playground a grand entry with an archway. Looks great when used with Arch Metal Roofs.

### Arch Metal Roof

Add a classic architectural touch to your playground with our Arch Metal Roof.

**Hex Roof**

**Square Shingle Roof**

# Touch the sky with a wide range of swings

Get all the swings you need from Playland! We have full bucket and half bucket seats for preschoolers and belt seats for children 5-12 years old. These are tough, all-season swings made for lots of heavy use. They come in a variety of colors to match your playground color scheme. Please note that you can order standard galvanized chain or easy-on-the-hands yellow plastisol coated chain. Coated chain adds color and comfort to every swing event! Clevis fasteners are standard on every swing. This child-friendly hardware is the best way to meet safety standards.

Playland also offers the most popular options for swing structures: bi-pod frame, tri-pod frame, single post frame and arched frame. The entire single post and arched frames are coated to any of our post color selections (see page 143 for the Playland color palette). The bi-pod and tri-pod frames come with powder-coated junction sections and galvanized frames.

## Easy steps to designing your swing set

### Select swing set frame type

- Bi-pod
- Tri-pod
- Single 5" Post
- Arched 3.5" or 5"

### Choose the type(s) of seats

- Belt
- Bucket
- Half-Bucket

### Pick type of chain

- Standard Galvanized
- Yellow Vinyl Coated

### Select swing set frame

For example: 1,2,3 or 4 bays  
(Each bay holds 2 swings)

### Select colors

Seat color choices on pages 96

See frame color choices on page 143

# Swings: Arch Frames

## 5" Arch Swing Frame

This swing is the ultimate in strength and structural integrity. This is the heavy use champion! The 5" Arch Swing frames are constructed of the same high quality 5" steel tubing used in the Expedition Series. The top bar is also 5" tubing. The entire frame is powder-coated to match your playground. See page 143 for color selection.

**Note: Swing frames come with hangers but not seats or chain. Order swing seat and chain sets from pages 96.**

| Description               | Item Number | Use Zone | Weight    | Price   |
|---------------------------|-------------|----------|-----------|---------|
| 5" Arched, 8' - 1 bay     | 90015501    | 24'x32'  | 390 lbs.  | \$1,784 |
| 5" Arched, 8' - 2 bay     | 90015502    | 36'x32'  | 620 lbs.  | \$2,923 |
| 5" Arched, 8' - 3 bay     | 90015503    | 47'x32'  | 850 lbs.  | \$4,062 |
| 5" Arched, 8' - 4 bay     | 90015504    | 58'x32'  | 1080 lbs. | \$5,199 |
| 5" Arched, 8' - Add-A-Bay | 90915500    | 24'x32'  | 230 lbs.  | \$1,140 |

## 3.5" Arch Swing Frame

This simple architecturally styled arch frame is a fun swing alternative. The 3.5" Arch Swing frames and 2 3/8" top bars are constructed of the same high quality steel tubing used in our play structures. The entire frame is powder-coated to match your playground. See page 143 for color selection.

**Note: Swing frames come with hangers but not seats or chain. Order swing seat and chain sets from pages 96.**

| Description                 | Item Number | Use Zone | Weight   | Price   |
|-----------------------------|-------------|----------|----------|---------|
| 3.5" Arched, 8' - 1 bay     | 90015201    | 24'x32'  | 225 lbs. | \$1,216 |
| 3.5" Arched, 8' - 2 bay     | 90015202    | 36'x32'  | 325 lbs. | \$1,876 |
| 3.5" Arched, 8' - 3 bay     | 90015203    | 48'x32'  | 485 lbs. | \$2,536 |
| 3.5" Arched, 8' - 4 bay     | 90015204    | 58'x32'  | 615 lbs. | \$3,195 |
| 3.5" Arched, 8' - Add-A-Bay | 90915200    | 24'x32'  | 150 lbs. | \$662   |

## Bi-Pod Swing Frame

This is your basic swing for fun. The Bi-pod frames use 2 3/8" galvanized pipe for the legs and top bar and powder-coated aluminum castings for their junctions. See page 143 for color selection.

**Note: Swing frames come with hangers but not seats or chains. Order swing seat and chain sets from pages 96.**

**\*Powder coated frames available for additional charge.**

**\*\*For swing pad with beveled edge see page 97**

| Description                    | Item Number     | Use Zone | Weight   | Price   |
|--------------------------------|-----------------|----------|----------|---------|
| Bi-pod, 8' - 1 bay             | 90015401        | 25'x32'  | 180 lbs. | \$573   |
| Bi-pod, 8' - 2 bay             | 90015402        | 36'x32'  | 280 lbs. | \$978   |
| Bi-pod, 8' - 3 bay             | 90015403        | 47'x32'  | 380 lbs. | \$1,382 |
| Bi-pod, 8' - 4 bay             | 90015404        | 58'x32'  | 480 lbs. | \$1,784 |
| Bi-pod, 8' - Add-A-Bay         | 90915400        | 25'x32'  | 100 lbs. | 406     |
| *Powder-Coated Frame (per bay) | Swing PC Charge |          |          | \$271   |

## Tri-Pod Swing Frame

The advantage of the Tri-pod frame is the ability to go to a 10' height for added swing play. The Tri-pod frames use 2 3/8" galvanized pipe for the legs and top bar and powder-coated aluminum castings for their junctions. See page 143 for color selection.

**Note: Swing frames come with hangers but not seats or chains. Order swing seat and chain sets from pages 96.**

**\*Powder coated frames available for additional charge.**

| Description                    | Item Number     | Use Zone | Weight   | Price   |
|--------------------------------|-----------------|----------|----------|---------|
| Tri-pod, 8' - 1 bay            | 90015301        | 33'x32'  | 230 lbs. | \$686   |
| Tri-pod, 8' - 2 bay            | 90015302        | 45'x32'  | 330 lbs. | \$1,122 |
| Tri-pod, 8' - 3 bay            | 90015303        | 56'x32'  | 430 lbs. | \$1,573 |
| Tri-pod, 8' - 4 bay            | 90015304        | 67'x32'  | 530 lbs. | \$2,022 |
| Tri-pod, 8' - Add-A-Bay        | 90015300        | 33'x32'  | 100 lbs. | \$452   |
| Tri-pod, 10' - 1 bay           | 90015311        | 36'x40'  | 260 lbs. | \$769   |
| Tri-pod, 10' - 2 bay           | 90015312        | 47'x40'  | 360 lbs. | \$1,197 |
| Tri-pod, 10' - 3 bay           | 90015313        | 58'x40'  | 460 lbs. | \$1,678 |
| Tri-pod, 10' - 4 bay           | 90015314        | 69'x40'  | 560 lbs. | \$2,161 |
| Tri-pod, 10' - Add-A-Bay       | 90015391        | 36'x40'  | 100 lbs. | \$484   |
| *Powder-Coated Frame (per bay) | Swing PC Charge |          |          | \$271   |

## 5" Single Post Swing Frame

This is the space saving frame for smaller areas. The entire frame for the Single 5" Post Swing is constructed of 5" tubing and powder-coated to match your playground. See page 143 for color selection.

**Note: Swing frames come with hangers but not seats or chains. Order swing seat and chain sets from pages 96.**

| Description                         | Item Number | Use Zone | Weight   | Price   |
|-------------------------------------|-------------|----------|----------|---------|
| 5" Single Post, 8' - 1 bay          | 90015101    | 24'x32'  | 271 lbs. | \$907   |
| 5" Single Post, 8' - 2 bay          | 90015102    | 36'x32'  | 362 lbs. | \$1,622 |
| 5" Single Post, 8' - 3 bay          | 90015103    | 47'x32'  | 453 lbs. | \$2,401 |
| 5" Single Post, 8' - 4 bay          | 90015104    | 59'x32'  | 544 lbs. | \$3,181 |
| 5" Single Post, 8' - Add-A-Bay      | 90915100    | 24'x32'  | 911 lbs. | \$781   |
| 5" Single Post, 8' w/ Shade - 2 bay | TFR08980    | 36'x32'  | 299 lbs. | \$4,000 |

## 5" Arched Tire Swing Frame

Playland also makes the very popular Tire Swing. The entire frame for the swing is constructed of 5" steel tubing and powder-coated to your choice of color.

See page 143 for color selection. Tire swings are available in 1, 2, 3 or 4 bays.

**Note: Swing frames come with hangers but not tires or chains. Order tire and chain sets from page 96.**

| Description                    | Item Number | Use Zone | Weight    | Price   |
|--------------------------------|-------------|----------|-----------|---------|
| 5" Arched Tire, 8' - 1 bay     | 90015991    | 22'x28'  | 550 lbs.  | \$1,882 |
| 5" Arched Tire, 8' - 2 bay     | 90015992    | 22'x44'  | 860 lbs.  | \$3,112 |
| 5" Arched Tire, 8' - 3 bay     | 90015993    | 22'x59'  | 1170 lbs. | \$4,344 |
| 5" Arched Tire, 8' - 4 bay     | 90015994    | 22'x74'  | 1480 lbs. | \$5,574 |
| 5" Arched Tire, 8' - Add-A-Bay | 90945900    | 22'x28'  | 310 lbs.  | \$1,233 |

## Available Colors for Full Bucket Seats

## Available Colors for Half Bucket Seats

Available half bucket seat chain. Sold separately.

### Half and Full Bucket Seats

These seats have unique high backs for added support and comfort and have full stainless steel inserts.

Half bucket seats also available with optional safety chain.

**Each item number includes two seats and all necessary chain and hardware for each swing bay. Order one item number per bay ordered.**

| Description                                     | Item #   | Length    | Weight   | Price      |

| Rotomolded Tire w/Plastisol Coated Chain Set | 90015801 | 9 lbs. | \$277 |

Rotomolded Tire

## Ductile Iron Swing Hangers

These high-quality ductile iron swing hangers have a steel pivot bolt that suspends a tough bronze bushing.

## Stamped Steel Swing Hangers

These high-quality stamped steel swing hangers have a steel pivot bolt that suspends a tough bronze bushing.

## Beveled Swing Pads

Add protection below each swing in areas where infill type surfacing is used to minimize displacement of surfacing and add additional impact-attenuation.

| Description              | Item #  | Size         | Weight  | Price |

**POP!**

Play On Power

# Complete your playground with Independent Events

Independent play structures are a great way to provide an alternate play environment for a child. While the main playground structure is great for group play, these bright imaginative play components attract one or perhaps a few children at a time creating a whole new play experience. They can provide a needed rest from the crowds on the playground.

Independent ground level events are also a requirement for the ADA guidelines. It is important to give every child a fun, challenging environment.

You will find in the following pages a complete range of age appropriate equipment. As always, be sure to note safe use zones.

**Choose From Over 60 Independent  
Play and Freestanding Events!**

- 36' Hook Slide
- 46' Spiral Slide

# Turn any Playground into a Park with Outdoor Furniture

Our outdoor furniture stems from 27 years of experience in developing and manufacturing commercial playground furniture. Over time, we've tried and tested our products in a host of environments, climates and settings - from the Great Lakes up North to the Keys down South, from the Chesapeake Bay back East to the Catalina Islands out West. We've experienced the rigors and extremes of the outdoors as we have learned what these products need to give satisfying service for years. That is precisely what our outdoor furniture provides today.

All pieces begin with a heavy gauge steel core to which a smooth UV-stabilized plastisol coating is added. Frames for benches and tables have a powder-coat finish that, like the plastisol coated steel tops and seats, stands up well to nature's nastiest onslaughts.

We invite you to see what we offer in the pages that follow, and then to contact us to find out specifically how we might help you satisfy your outdoor furniture needs and desires.

**Choose from 14 Colors**

With 14 available colors to choose from for tops, seats and frames you can coordinate your amenities to your play structures, shades and shelters.

**Note: Due to printing process, colors shown may vary from actual products; please contact your dealer for color samples.**

Above: T46RACS Below: T46RACPEDS

**Canteen Series**

Our Canteen Series tables and benches feature tops and seats made with 3/4" #9 expanded metal. They are welded inside a strong 2" angle iron frame with a protective plastisol coating. Additional bracing under the frames uses 1 1/2" X 1/4" flat steel which is important to keep the rounded corners and frame edges straight and good looking over years of hard abuse. These tables are perfect for food courts and courtyards.

**Canteen Portable Tables**

| Description         | Item #    | Weight   | Price |

## Plasti-Plank™

Playland now carries Plasti-Plank™ site furnishings. Plasti-Plank™ picnic tables and benches are your solution for recycled site amenities with all of the desirable non-corrosive qualities of recycled plastic lumber and the added strength of steel. Steel is the world's most recycled and recyclable material. From old cars to old appliances, the steel in Plasti-Plank™ is recycled and re-created into colorful, durable tables and benches.

## Regal

The Regal Series tables and benches feature tops and seats made with 3/4" #9 expanded metal welded inside a strong 2" angle iron frame with a protective plastisol coating. Additional bracing under the frames uses 1 1/2" X 1/4" flat steel to keep the rounded corners and frame edges straight and good looking over years of hard abuse.

## Infinity Innovated

Our Infinity Innovated Series features tops and seats made with small hole (1/2") 11 gauge punched steel welded inside a strong 2" angle iron frame with a protective plastisol coating. The tops and seats still have the same sturdy 2" border, but with an angled sloping design that gives the table a whole new look. Additional bracing under the frames uses 1 1/2" x 1/4" flat steel which is important to keep the product straight and good looking over years of hard abuse.

## Web

The Web Series Tables offer easy access to seating and convenient clean up beneath. You can choose from the wide selection of patterns for the tops and seats. The 2 7/8" OD frames add strength and durability. Mounting plates are standard and can be either bolted down for surface mounting application or left un-bolted for portable applications. Stationary frames with an extra 30" length on the frame legs to allow for inground mounting are also available. Surface mount covers (SMLCOVER) are available for that final finished look,

## Amenities: Tables & Benches

T46PERF

### Perforated

The unique hole pattern of the Perforated Series Tables provides a very smooth surface. Tops and seats are made with plastisol coated large hole (3/4") #11 punched steel and given extra support with 1 1/2" X 1/4" flat steel. All edges and corners are rounded to a 2" radius.

# Play it cool in the Shade

Playland provides superior shade products for virtually every type of playground and outdoor situation - no matter the size, shape or location.

The management team at Playland has over 45 years of shade and recreation products experience, both here in the U.S. and abroad. We have created and installed canopies in some of the world's most sun-intense locations, including south Florida, Australia, the Caribbean and South Africa.

Our fabrics come in a wide variety of colors and provide up to 99% protection from dangerous Ultraviolet (UV) Radiation, as measured by the Ultraviolet Protection Factor (UPF) rating.

Our products are built to last.

## Just a few of the benefits of Playland shade include:

- Our fabrics provide up to 99% UV protection, which protects from painful and even cancerous sunburns
- Protects your play equipment investment
- Your play structures will be cooler to the touch
- Our fabrics provide 80% water repellency
- Around sports fields our canopies give protection from misdirected, high-flying balls
- Our patented pending Glide Elbow enables you to quickly remove and re-install canopies in the event that severe weather is in the forecast.
- Both our high-gloss powder-coated steel frames and outstanding UV block fabrics come in a wide variety of pleasing colors, which you can mix and match as you choose.

## Available Fabric Colors

12 great colors to choose from! Due to printing process, colors may vary from actual product, please contact your dealer for accurate color samples.

## Squares & Rectangles

Our square and rectangular shapes are great for:

- Picnic Areas
- Water Parks and Pool Decks
- Playgrounds
- Bleachers
- Dugouts
- Concession Areas

At the core of Playland's shade offerings are our Square and Rectangular designs which deliver remarkably efficient and economical shade protection. They're available in a wide variety of sizes, heights, colors and fabrics - all of which can be coordinated to meet your location's individual requirements.

- Playgrounds
- Concession Areas

If you want to create a more unusual, creative look, our polygon structures provide the right touch. Of course they still deliver all the protection and durability of our other shapes - they just do it with more flair.

So let your imagination go. Our designers will work with you to produce a fresh, colorful structure that will express your location's unique personality.

### Sails

When you have a project that you want to truly stand out - or when you have an odd-shaped location where post locations must conform to restrictions - our Sail designs are the solution. They can be combined in virtually any combination, and they'll provide both a bold, unique look as well as top-flight UV protection of up to 99%.

You name it - whether it's an amphitheater, a sports field, or a large spectator seating area - our distinctive Sail shape will both serve your location and set it apart in excellent style.

## Cantilevers

Our cantilever and minimal post shapes are great for:

- Parking Areas
- High-Traffic Areas
- Pool Decks
- Picnic/Seating Areas

Many locations require the use of as few posts and/or footings as possible. A design that works most effectively in those areas is our Cantilever Shade, because that shape is engineered to provide maximum shade with minimal obstructions. Our Cantilever designs are available in a number of different overhangs, lengths and heights - all of which offer the same fabric styles, colors and easy-fastening features of our other shapes.

## Custom

We've yet to meet a space we couldn't figure out how to protect and beautify. So don't hesitate to talk to us about your most difficult project. We love to solve a shade challenge as economically and creatively as possible!

When you work with us, you'll see that our customer service, designs, durability and our "Can-do" attitude are all superior in every way!

# Umbrella Structures

*Enhancing Your Customers Experience!*

Skyspan Umbrellas are industry leaders in the design, manufacture and installation of commercial outdoor umbrellas.

Skyspan is constantly working to provide a pioneering design approach, precision engineering and the reliable delivery of all sizes of free standing architectural commercial umbrellas. Laminated Wood Beam Gabled Shelter with fiberglass shingles.

Available in 16', 20', 30', 40' and 50'

## Playland General Guarantee:

- Playland warrants its play structures to be free from defect in materials and workmanship during installation and normal use.
- Playland Further Warrants the Following:
- Limited Lifetime Warranty on all Galvanized Steel Posts, Stainless Steel Hardware, Aluminum Fittings and Aluminum Post Caps.
- Limited 15-Year Warranty on all Punched Decks.
- Limited 10-Year Warranty on all Rails, Rungs, Loops, Rotomolded Components and Plastic Sheet Components.
- Limited 1-Year Warranty on all Moving Parts, Swing Seats, Swing Hangers and other material not covered above.

The warranty stated above is valid only if the structure is installed in conformity with the installation instructions provided by Playland using parts approved by Playland. All parts are to be subject to normal use for the purpose of which the parts were designed. Prior to installation, the parts are not to be subject of vandalism, misuse, neglect or accident. Parts are not to be altered, modified or repaired by anyone other than Playland.

This warranty does not cover cosmetic items (i.e. scratches, dents, fading, discoloring, weathering), paint or decorations, and normal wear and tear.

Playland shall deliver the repaired or replacement part or parts to the site free of charge, but will not be responsible for labor or the cost of labor on replacing these parts. Replacement parts shall be covered under the original warranty.

This warranty is exclusive and is in lieu of all other warranties, whether expressed or implied, including but not limited to any warranty of merchantability or fitness for a particular purpose. Further, no representation, written or oral, of any Playland sales representative may be substituted for the afore described exclusive limited warranty. To the extent permitted by law, Playland shall not be liable for any direct, indirect, special, incidental or consequential damages, which are expressly excluded from this sale.

### Terms and Conditions

**Pricing:** Prices do not include delivery and installation charges and are subject to change without notice.

**Terms:** Net 30 days from date of invoice for those with approved Playland credit, 1.5% per month there-after; freight charges are prepaid and added to invoice. To all others: Payment in advance.

**Taxes:** Prices do not include applicable taxes, if any.

**Delivery:** Delivery of products is by common carrier. Should there be damages or shortages, notify carrier at once and sign the delivery receipt noting the damages or shortages. Should it be necessary, we offer the service of filing freight claims for customers, unless 3rd party freight is requested. We will need the original freight bill showing the shortage or damage and the signature of the driver.

**Weights:** The weights shown are approximate and may vary.

In order to honor our commitment to quality and safety,  
Playland reserves the right to make changes to any product shown in this catalog.

**CERTIFICATE OF APPROVAL**

# Play with Color

Color makes a playground as much fun to see as to play on! Playland has the most popular colors and a great plan for how to put them together. Just follow the outline below, and remember, your local representative or one of our staff will be happy to help you. We love to explore the color dimension and we will show you a complete 3D computer rendering of your playground in the colors you picked. If you wish to change them at this stage - it's easy!

When you are ordering colors, think about your playground setting and type of use. A playground can easily blend with the environment by using earth-tones or be bright and playful by the use of primary colors. School colors, club colors, or just your own color scheme are all available.

All Playland metal components are painted by a process called powder-coating. This is a superior, high-gloss, no-peel finish. Powder-coating is better than any other painted coating because it is baked on the metal. All Playland plastics contain UV stabilizers for long lasting fun under the sun. In addition, they are resistant to mold and mildew, making them very easy to clean.

Every modular Playland playground is available with a maintenance kit. The kit contains touch up paints that are color matched to your unit. If a

metal component is scratched, it can be touched up immediately with this quick dry paint. The kit also contains tools and instructions for that all-important preventative maintenance. By using these tools and this guidebook, you and all of the children will have years of great, safe fun - and more Play-on Power!

**Note: Due to printing process, colors shown may vary from actual products, please contact your dealer for color samples.**
