DURALINER®
6' x 250' roll

We Invented the Standard for an Entire Industry!

WOODCARPET® SYSTEM 1

First in the industry to offer engineered wood products for playgrounds, **Zeager is still the standard by which all others are measured.** Our ease of installation, attention to safety standards, and consistent quality assures that only the finest materials will protect your playground for years to come. And our exclusive network of production facilities throughout all 50 states and Canada keeps delivery costs low and the quality very high for all our clients.

WOODCARPET® SYSTEM 1

Impact Rating: **8" Rated to 8' and 12" Rated to 12'**

ADA compliant: **Yes**

Sub-base: **Soil or Sand**

GREEN FEATURES: **Extracted, Processed & Manufactured Regionally. Pre-Consumer Recovered Content.**
(WoodCarpet Only)

OTHER FEATURES: **Simple Installation. Affordable. System Discounts Available.**

CONDITIONAL LIMITED WARRANTY

Zeager warrants its premium and recycled Woodcarpet® System 1 to meet ASTM F1292 at an 8 foot fall height when using an 8 inch layer of Woodcarpet® or at a 12 foot fall height when using a 12 inch layer of Woodcarpet®, for a period of 15 years.

Zeager warrants its foam and pvc Woodcarpet Mat® for a period of 5 years.

Installation and maintenance in accordance with Zeager's specifications, using Zeager materials, is required. A complete set of installation instructions, maintenance instructions and warranty are available at www.zeager.com.

MAINTENANCE RECOMMENDATIONS

Daily Maintenance

1. Visually inspect and remove all foreign material (trash, stones, branches, etc.).

Weekly Maintenance

1. Rake the Woodcarpet® as necessary to keep the surface level and the depth sufficient throughout the play area. Woodcarpet Mat® will reduce or eliminate the need to rake the Woodcarpet®.

Accessibility

ALL of Our Surfaces Are Third Party Certified!

"I was referred to your company by someone who installs creative playgrounds in and around New York State. I am writing to let you know how easy it was to work with your sales representative. He worked with me on the pricing and we were able to do a lot more than we planned to do. There were several instances where changes were made and your sales representative just rolled with the punches. I will not hesitate to use your company for any future plans we may have with our playgrounds."

ALL of Our Surfaces MEET or EXCEED Requirements for ADA!

WHEN YOU NEED QUALITY ENGINEERED WOOD SURFACING,

THINK OF ZEAGER—FIRST!

✓ **FIRST**
American
Manufacturer of
Engineered Wood
Safety Surfacing.

✓ **FIRST** to Meet
Accessibility Standards

✓ **FIRST** to Offer
Woodcarpet Mats®
with an Exclusive
No-Trip Design.

"For a few years now, we have been using Zeager's Woodcarpet® and Woodcarpet Mats® for our playgrounds in our family housing areas at Fort Campbell. The service we have received has been good and the Woodcarpet® is working well for our playground surfaces. The Woodcarpet Mats® do a good job of eliminating the kick-out under our swings and slides. We have used about 1,500 cubic yards of Woodcarpet® and many Woodcarpet Mats® and would recommend these products to others that may be considering them."

PRODUCED LOCALLY
with Production Facilities
from California to Nova Scotia
— and Florida to
British Columbia

Monthly Maintenance

1. In the play structure use zones, dig down to the sub-surface or drain system and measure the depth of Woodcarpet.® Top off as needed.
2. Check and ensure sufficient depth of Woodcarpet® under each Woodcarpet Mat.® Top off as needed.
3. Check and ensure that each anchored Woodcarpet Mat® is securely anchored.

NOTES:

1. Woodcarpet® contains fresh wood. Fresh wood contains tannins, which are a natural preservative found in living plants and trees that rain will eventually wash out of the Woodcarpet® into the drain system. This dark brown residue is externally harmless to humans and should gradually diminish.

2. During freezing conditions, Woodcarpet® will likely be less resilient, particularly with poor drainage. Restrict use of the area accordingly.
3. A complete set of installation instructions, maintenance instructions and warranty are available at www.zeager.com.

**SO EVERY CHILD
CAN PLAY SAFELY!**

**Preserve Your WoodCarpet® System
in High Traffic Areas**

WOODCARPET MATS®

Designed to be used under swings, at the exit and entrance to slides, spinners and other high traffic areas of your playground, our superior WoodCarpet Mats® are a perfect complement to your WoodCarpet® system. These durable mats will stay in place and keep wood fibers below from being displaced or shifting – greatly reducing maintenance issues.

Our PVC Mats are made of 60% recycled / 40% virgin PVC, bake-molded into many shapes complete with drainage holes.

Our Foam Mats are constructed from closed-cell, polyethylene foam thermally fused into a mat then adhered to a durable vinyl cover top for wearability. Our unique anchoring provides stability and theft protection.

AVAILABLE PVC MAT SIZES:

- 42" x 42" Slide
- 78" x 78" Spinner

- 42" x 78" Swing
- 78" x 78" Tire Swing
- 78" x 90" Swing Bay
- 156" Merry-go-round

- FOAM MAT SIZES:**
- 44" x 44" Slide
 - 44" x 74" Swing
